THURSDAY MORNING OCTOBER 28, 1915.

RETURNS MAGNIFY JOHNSON'S CRUSHING DEFEAT.

BULGARS TAKE PIROT, WELL FORTIFIED TOWN, FEW MILES FROM NISH.

[BY ATLANTIC CABLE AND A. P.] (30)
LONDON Oct. 28. (7:11 a.m.)—Bulgarian forces aiming toward Nish have occupied the strongly fortified town of Pirot, says a dispatch to the Mail from Saloniki.

Pirot is thirty-five miles east of Nish. It was the scene of an important battle between Serbs and Bulgarians in 1885. Since Sunday the allies' troops have run without interruption between Givgeli and Velea. This section, it is said, has been entirely cleared of Bulgarians.

MILAN (via Paris, Oct. 28).—The Secolo announces that the Bulgarians have been repulsed in the Timok Valley after two days of desperate fighting. One of their regiments is surrounded between the Timok and the Danube and will, the Secolo believes, be obliged to surrender.

Two Serbian divisions, under Gen. Glukowitch, are marching against the Austro-Germans.

PARIS, Oct. 28.—Ukup was abandoned by the Serbs, says a dispatch to the Matin, sent from Saloniki Tuesday, with the object of drawing on the Bulgarians and enabling the Serbian forces at Velea to envelop them in the north.

The correspondent says that the Germans, after gaining thirty miles, thanks to their heavy artillery, are now checked by natural obstacles which will make that artillery useless.

GERMAN CABINET ENVOY ON MISSION TO THE HAGUE

[BY ATLANTIC CABLE AND A. P.] (30)

LONDON, Oct. 28 (4:09 a.m.)—The visit to The Hague of W. S. Solf, the German Colonial Secretary, according to the Daily Chronicle, is connected with negotiations which the newspaper are already on foot for the calling of a truce in Central Africa.

The Netherlands Minister to London, the Chronicle adds, recently visited The Hague, where the question was discussed at length with the Dutch Cabinet. The German government has not put forward its side of the controversy as to who started the hostilities. The German memorandum is entitled "Negotiations Concerning the Possibility of the Conventional Basin of the Congo." It maintains that the British took the initiative in the hostilities in this region.

Evidence that the British are now willing to treat this point as a doubtful one is seen by the Daily Chronicle in an answer given by Lord Robert Cecil, Under-Secretary for the Colonies, to a question in the House of Commons:

"I am unable to state what was actually the first act of war with the conventional basin of the Congo."

The Daily Chronicle says it remains to be seen whether Germany will be able to propose the basis for an armistice acceptable to Lord Kitchener.

The Mail learns from its Berne correspondent that Prince von Buelow, former German Imperial Chancellor, whose name has been connected with recent rumors of peace negotiations, will probably go to Madrid and thence to the United States.

This report is denied by a message from Zurich, which says that Buelow merely has asked the Italian government for safe conduct to Genoa owing to the fact that his Italian wife is to undergo an operation there. A dispatch from Rome also denies that the former German chancellor plans to go on a peace mission to America.

EZIO GARIBALDI WOUNDED.

[BY ATLANTIC CABLE AND A. P.] (30)

MILAN (via Paris, Oct. 28, 5:30 a.m.)—Ezio Garibaldi, one of the five sons of Gen. Ricciotti Garibaldi, and grandson of Garibaldi, the Italian liberator, has been seriously wounded, the Secolo states, in a battle near Coularca. A bullet entered his chest and perforated his lungs. His father and mother have gone to Venice to be with him in the hospital where he was taken.

SINGER TAKES POISON.

(30)

Mrs. Violet La Dduke, 20 years of age, a singer at the New Cafe, and living at the Greenwood Hotel, Ninth and Main streets, early this morning attempted to end her life by swallowing poison. Mrs. La Dduke ran from her room where she had been sleeping with her husband and swallowed the poison as she stood in the hallway. She was taken to the Receiving Hospital and treated. According to Police Surgeon Johnson she will recover. She gave no reason for her action.

MYSTERIOUS AUTO WRECK; TWO OCCUPANTS ARE HURT

(30)

H. J. Justice, proprietor of the Crown City Sheet Metal Works, No. 156 West Union street, Pasadena, and Guy Blackman, 145 Worcester street, Pasadena, were taken to the Receiving Hospital this morning following a mysterious accident in which an automobile was wrecked at the intersection of Broadway and Broadway. Justice was suffering from a broken spine and possibly a broken arm, and Blackman was suffering from a broken arm and possibly a broken leg. Their injuries were such that neither could give any account of the accident and they did not know each other. The front of the automobile was smashed in, as it would have been if it had been run against a man at high speed, but Blackman, who is very slight of frame, did not present the appearance of having been injured in this way. There was no other machine injured to be found near by, and the police from the East side division were inclined to accept the theory that the men had become acquainted during the night and that, on their way home, the machine turned turtle and righted itself again after spilling them out. The car had been reported earlier in the morning as standing all night near the Plaza.

The "No"-Party.

COL. REBER MAY APPEAR IN THE GOODIER CASE.

[BY A. P. NIGHT WIRE.] (30)

SAN FRANCISCO, Oct. 27.—A request for the appearance of Lieut. Col. Samuel Reber, chief of the aviation section of the army, at the court-martial of Lieut. Col. Lewis E. Goodier, judge advocate of the western department, was telegraphed today to the War Department. The prosecution made the request so that Col. Reber might testify concerning correspondence with Capt. Arthur S. Cowan, commandant of the army aviation school at North Island, near San Diego.

Capt. John T. Geary, trial judge advocate, announced to the court that the appearance of Col. Reber as a witness the prosecution was prepared to close its case after he had been heard. An adjournment was taken until Col. Reber arrives.

Capt. Cowan completed his testimony today with the statement that under the law he was entitled to "fly pay," an increase in his case of 35 per cent. over his regular pay. He testified that so far as he had noticed there had been no act of disrespect on the part of the officers at the aviation school during April or May of this year. This was brought out by counsel for the defendant to show that there was no ill-feeling against Capt. Cowan on the part of the aviators even after charges had been preferred by Lieut. T. F. Dodd and Lieut. W. B. Tallaferrero, both army aviators. Lieut. Tallaferrero was killed in a flight October 11.

An opinion of "Erik-Gen. E. H. Crowder, judge advocate-general of the army, to the effect that the charges against Cowan could not be sustained, was read to the court by Capt. Geary. To this Capt. Allen J. Greer, of counsel for the defendant, objected on the ground that Col. Goodier had not been consulted in the case and had not been given opportunity to present his side. The opinion of the judge advocate-general was made after Col. David Shanks, department inspector, had made an investigation of the North Island aviation school.

FOUR GERMAN STEAMERS SUNK BY THE BRITISH.

[BY ATLANTIC CABLE AND A. P.] (30)

PETROGRAD, Oct. 27 (via London, Oct. 28, 1:33 a.m.)—British submarines have sunk four more German steamers in the Baltic. This announcement is made in the Russian official statement issued tonight.

LONDON, Oct. 27, 10:10 p.m.—The German army which crossed the Danube at Orsova has joined hands with the Bulgarians who invaded Serbia near Prabhovo and the central powers now have an open road through Northeastern Serbia and Bulgaria to the Aegean Sea and Constantinople. They are thus in a position to send guns and munitions by river and railway to their Bulgarian and Turkish allies, who will be greatly strengthened thereby.

The invasion of the northern portions of Serbia by the Austro-Germans continues, while Bulgaria is putting forth a strong effort to secure control of additional sections of the Belgrade-Saloniki railway.

From the Iron Gates along the Servo-Rumanian frontier to Negotin, where the river leaves Serbian soil, the Danube is now held by the Austro-Germans and Bulgarians and offers a means for the shipment of men and arms and ammunition to Rutchuk, a short distance westward of the point where the Danube bends northeastward and quits Bulgarian territory.

From Rutchuk two lines of railways radiate, one to the south connecting at Philippopolis with the Belgrade-Constantinople express line and the other running eastward to Varna. Bulgaria's chief seaport on the Black Sea. By the use of the river to Rutchuk, therefore, the Teutonic allies could be of service not alone to the Turks on the Gallipoli peninsula, but to the Bulgarian forces and possibly some of their Turkish allies, who will meet any attempts at a hostile landing along the Black Sea coast.

That the Teutons and their allies now will continue southeast along the Timok River Valley in an endeavor to reach Nish and capture that important junction of the Belgrade-Constantinople express line and the Nish-Saloniki line seems probable. It is still mountainous country in which the Austro-Germans and Bulgarians are fighting against the Serbians in Northeastern Serbia. To the east of their positions lies the Timok River and across the stream in the extreme northeastern neck of Bulgaria between the Servian and Rumanian frontiers are a mountain range and a veritable network of rivers all the way southeastward to Sofia.

So far as the north is concerned, Serbia, it is feared by her allies, is doomed, but in the south, reinforced by the Teutons, she is still a factor.

PARTY REORGANIZATION FOR THE NEXT CAMPAIGN

Magnificent Victory Won by California Electorate Causes Great Rejoicing

Crafty Lieutenants of the Governor are Hoping to Extract Some Waterlogged Salvage from the Tide by Dodging a Special Session of the Legislature to Put the State Right with Itself Again.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SACRAMENTO, Oct. 27.—There was just one bright spot in the gloom of the day today: that was the office of Secretary of State Frank Jordan. The tide of humanity that usually flows into the Governor's office was deflected to that of the State Secretary instead. It was here that members of all the old parties gathered to celebrate their victory.

But victories carry with them responsibilities and the task of building up again the regular political organizations from the debris of yesterday's special election, had a sobering effect and tempered the fervor of the rejoicing. Gov. Johnson and his pay roll brigade have disappeared. It now seems a question of reorganizing along the old lines for next year's political campaigns.

MAGNIFICENT VICTORY.—As the passing of the victory drew a number of State officials, who were elected with "Progressive" increments, admitted that their cause in the State is dead. They were standing in the corridors of the Capitol like automata who had scrambled from beneath the wreck of their machine and were waiting by the roadside for another machine to come along and give them a lift.

At the same time some of the crafty lieutenants of the Governor were figuring in secret councils to discover how they could get some salvage from the wreck. One of their plans became known this afternoon. They are trying to find a way to avoid a special session of the Legislature and to make all candidates run as independents next year. This was planned for last spring when the anti-party bill was passed. At that time the election law of the State was separated into four acts. To repeal them all, four referendums would have been necessary. Two only were used. This leaves the registration law and the law affecting the selection of delegates to national conventions as passed by the 1913 Legislature.

It developed today that on Saturday and Monday the "Progressive" leaders sent a number of persons to register in different sections of the State. These registered under the new law which provides that the elector shall not state his politics until he has voted. But the primary law, which was sustained yesterday, provides that only those registered as affiliated with a political party can enter the primaries as a candidate of that party. A number of attorneys have expressed the opinion that the courts would decide that the intent of the whole law is to be considered and that this intent makes plain that voters are expected to state their politics if they desire when they register. But attorneys friendly to the Johnson machine assert that the law must be taken as it reads, and that this means everything independent next year.

The Sacramento Bee, an administration paper, asserts this evening that the Governor has declined to express himself in favor of a special legislative session and that next year every candidate will run independent. Cool-headed advisers of the administration, however, assert that the Governor will call a special session of the Legislature in order that the measure in the law may be rendered. Clerk Malory of this year's Assembly said today that the expense of a special session of the Legislature would be over four days would be about \$3000.

CONFLICTING LAWS.—Under the present conflicting laws there is no way in which delegates to national political conventions could be legally chosen; it is even doubtful if delegates could be chosen after prior to that a primary election could be held.

MAJORITY IS INCREASED AGAINST NO-PARTY LAW

(30)

As Votes from the State Continue to Roll in Overwhelming Verdict of the People Against Johnson Measures Becomes More Apparent—Rural Credits and Two Others May Have Carried.

[BY A. P. NIGHT WIRE.]
SAN FRANCISCO, Oct. 27.—All but 339 of the State's 4672 precincts had reported their returns from yesterday's election at 9 o'clock tonight, and the tabulation augmented the majorities cast against the no-party measures. The direct primary bill had been turned down by a negative majority of 24,118, and the form of ballot measure had a majority against it of 25,212.

Only four counties, according to the returns, had endorsed the bills—Santa Clara, Sacramento, Fresno and Stanislaus. In Sacramento county the vote in favor of the measures was the most pronounced.

Several of the constitutional amendments promised to carry. Proposition No. 4, stipulating that Supreme, Appellate and Superior court judges should retire on or after their successors had qualified, was leading by a majority of 1000 votes.

Proposition No. 5, proposing rural credits legislation, and No. 7, requiring a two-thirds majority vote to pass initiative and referendum petitions, were gaining rapidly.

Returns from Sacramento and Fresno counties turned the tide in favor of the three amendments, and it was believed that heated returns from the other counties would carry them.

MERIDEN ROAD
PAWN IN GAME.

New Haven's Secret Purchase

Figures in the Trial.

Activities of John M. Hall

Shown by His Letters.

Acquired Line's Rolling Stock

and Turned it Over.

(BY A. P. NIGHT WIRE.)

NEW YORK, Oct. 27.—The activities

of Judge A. Heaton Robertson of

New Haven, one of the eleven former

directors of the New York, New Haven

and Hartford Railroad on trial for alleged

violation of the Sherman anti-trust

law, figured today for the first time

in the presentation of the government's

case. It was represented

as having secretly purchased for the

New Haven, the Meriden, Waterbury

and Connecticut River Railroad, a line

which John M. Hall, then vice-president

of the Connecticut Legislature, thought

should be "swept off the face of the

earth."

Judge Robertson was said to have

kept the line for more than two years,

turning its rolling stock over to the

New Haven, and finally the

road itself under a lease authorized by

the New Haven management. It was

stated that the line was after the

pattern of the road had been complained

of. It was also stated that the

New Haven management feared

that the real ownership would become

known and make political trouble in

the Connecticut Legislature unless the

road was operated.

HISTORY OF THE DEAL.

The history of the transaction, introduced

in the form of letters written

by Judge Robertson, was said to show

that the New Haven directors were

convinced that the line was a

pawn in the game of the

New Haven management. It was

stated that the line was after the

pattern of the road had been complained

of. It was also stated that the

New Haven management feared

that the real ownership would become

known and make political trouble in

the Connecticut Legislature unless the

road was operated.

BRITISH SING
GUNS' PRAISES.

Plethora of Munitions Makes

a Hit with the Army.

Gave Them Great Advantage

in Attack on Loos.

Success of Allies' Surprise

Disconcerted Germans.

(A. P. FOREIGN CORRESPONDENCE.)

BRITISH HEADQUARTERS IN

FRANCE, Oct. 26.—Since the taking

of Loos all the army is singing the

praises of the guns and the planes. No

such bombardment ever had been

heard on the British front as that

which preceded the attack.

There seemed no intervals between

the reports of the guns, not even those

of the best of a snare drum. House

windows in the surrounding country

kept up a continuous rattle.

"It is the sweetest sound in the

world," said one of the surviving veterans

of the retreat from Mons. "It means

you will get into the German trench

and have a fair fight of it, and you

won't charge into the play of the

machine guns or be hung up in the

barbed wire. A year ago when we

held the Germans back from the channel

ports we were doing it with shell and

blood against the outnumbering

German artillery. The most comforting

light in the world is a 5-inch howitzer

firing; the next to that is a motor truck

loaded with high explosive shells."

WAY OF MEX RISES.

As morning approached after the

night of bombardment, officers on the

British front were looking at their

wrist watches. In front of Loos the

figure six marking the hour—half

past six—was the goal of the

creeping minute hand. At that moment

the British plan of the attack was

launched. A series of powerful mines

which destroyed the German trench

works and entanglements, our troops

immediately occupied the excavation.

They installed and maintained

themselves in the trench, notwith-

standing a very violent counter-

attack by the enemy, who suffered

serious losses. We captured about

thirty prisoners.

To the north of the Alsne, in the

sector of Roche, west of Solons, the

methodical fire of our guns caused

heavy damage to the organization,

blockhouses and shelters of the

enemy.

To the east of Rheims the Germans

renewed on the front from Artois

attempts to break through the British

trenches, but with the employment

of our tanks and the use of large

quantities of our troops were able

to protect themselves effectively against

the attack. The British troops were

notified of the attack by the use of

the telephone and the use of the

messenger. The British troops were

notified of the attack by the use of

the telephone and the use of the

messenger. The British troops were

BOMB SUSPECT NOT A GERMAN.

Berlin Says no Such Person as Fay Known There.

Others, "Higher up," Sought by Government Detectives.

Case of Five Defendants Goes Over a Month.

(BY A. P. NIGHT WIRE.)

NEW YORK, Oct. 27.—Federal grand jury consideration of the case of the five men charged with conspiracy in plotting to destroy transatlantic ships laden with munitions of war for the allies will begin today. This was announced today by United States Attorney H. Warren Marshall, after a conference with William J. Flynn, chief of the secret service, and detectives who arrest the men.

After reviewing all the alleged evidence held by the government against the men, Robert Fay, Walter L. Scholz, Paul Daecher, Dr. Herbert Klenzle and Max Bretung—and giving special attention to the confession of Fay—Mr. Marshall said the government was not convinced that all the implicated had been arrested.

"No more warrants have been issued and no more arrests are contemplated for the present," Marshall said. "We may be further arrested later. We do not believe that this case is the last of the matter."

"We have much material against the men which still has to be sifted. One of the acts of the conspiracy was the actual firing of a bomb to a ship for experimental purposes. Our inquiry has not shown that any bomb was placed on a ship with intent to blow up the ship. It does our information indicate that Fay had any connection with the German secret service, or the German government."

FIND EXPLOSIVES.

Detectives were busy in Washington and New York, gathering evidence and acids alleged to have been used by Fay and Scholz, his brother-in-law, in experimenting with dynamite. The material gathered in New York was taken to the Federal house in the Hudson, where it was stored. The material gathered in New York was taken to the Federal house in the Hudson, where it was stored.

Another development was the sending of a telegram to the State Department by Count von Bernstorff, German ambassador here, in which he said Fay had any connection with the German secret service, or the German government.

GERMANY DENIES FAY THEIR AGENT.

(BY A. P. NIGHT WIRE.) WASHINGTON, Oct. 27.—Count von Bernstorff, the German ambassador here, has telegraphed the State Department that Robert Fay was not a German agent, and that the German government had no connection with the conspiracy to place bombs on transatlantic ships.

With this assurance the State Department is disposed to believe that the conspiracy to attach explosives to transatlantic ships was not a German plot.

FAY NOT KNOWN BY THE GERMAN. (BY ATLANTIC CABLE AND A. P.) BERLIN (via London) Oct. 27.—The German Foreign Office, speaking today for the German government, said that Robert Fay was not a German agent, and that the German government had no connection with the conspiracy to place bombs on transatlantic ships.

ALBANIANS FIGHT AGAINST SERBIANS. (BY ATLANTIC CABLE AND A. P.) SOFIA (Bulgaria) Oct. 27.—Albanians in the district of Servia (the province) have begun fighting the Serbians, according to the Bulgarian press today.

KING CANCELS SALONIKI VISIT. (BY ATLANTIC CABLE AND A. P.) PARIS, Oct. 27.—Information received today to the effect that King Constantine of Greece has canceled his visit to Salonika, and that he will remain in Athens.

GERMANS PIERCE RUSSIAN LINE. (BY ATLANTIC CABLE AND A. P.) BERLIN, Oct. 27.—The German press today announced that German troops under the command of General Hindenburg have pierced the Russian line in the district of the Dnieper river.

RUSTED RIVETS SANK THE F-4.

Finding of the Board of Inquiry is Made Public.

Corroded Battery Lining Filled Boat with Gas.

Crew Waged Heroic but Faint Fight for Their Lives.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 27.—A graphic picture of the battle for life in vain for the twenty-one men who perished in the navy's submarine F-4 last March at Honolulu is told in the report on the loss of the vessel submitted by a board of inquiry headed by Rear-Admiral Burch and made public today.

Examination of the wrecked hull of the F-4 had been brought to the surface and placed in drydock convinced the board that the disaster was caused by a leak from a corroded battery lining and the failure of the battery room diving qualities to respond promptly to the rudder when they should have returned to the surface.

Regarding the theory once advanced that chlorine gas brought quick relief to the crew, the board found no evidence to support it. The chlorine gas was found to be in the battery room, but it was not found in the crew's quarters.

NO ONE BLAMED. From the facts established we find the accident resulting in disaster to the F-4 on March 25, 1915, was not due to the negligence, incompetence, or inefficiency on the part of the officers or the men of the vessel, but that furthermore the personnel of the vessel were not at fault.

THE CAUSE. The primary cause of the disaster was the corroded condition of the battery lining and the failure of the battery room diving qualities to respond promptly to the rudder when they should have returned to the surface.

THE SECONDARY CAUSES WERE: (1) The poor diving qualities of the vessel; (2) The consequent failure of the battery room diving qualities to respond promptly to the rudder when they should have returned to the surface.

THE TROUBLE. The primary cause of the disaster was the corroded condition of the battery lining and the failure of the battery room diving qualities to respond promptly to the rudder when they should have returned to the surface.

THE TROUBLE. The primary cause of the disaster was the corroded condition of the battery lining and the failure of the battery room diving qualities to respond promptly to the rudder when they should have returned to the surface.

THIS CORRODED RIVET LEAKED CONSIDERABLY.

"Due to inevitable short circuit or heavy ground, caused by flooding of cells through stop tanks, in the presence of chlorine and free hydrogen (or in the presence of free hydrogen alone in sufficient quantity) electric arc struck, and therefore

"A battery fire of limited extent occurred in the forward battery positive cell, but, nevertheless, this battery fire was not the primary cause of the disaster.

"Leak found in port wall of forward battery lead-lined tank found plugged with marine glue, and therefore these conditions were contributory to the disaster.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WASHINGTON BUREAU OF THE TIMES, Oct. 27.—High officials of the present Democratic administration today admitted for the first time that the Treasury would be short at least \$50,000,000 for running expenses, even if Congress fulfills the expectations of President Wilson and Secretary McAdoo and suspends the free sugar clause of the tariff.

In conjunction with this admission it became known that several influential Democratic leaders in the House will vigorously oppose any proposal that is made by the administration to raise a duty on wool with a view to increasing the revenues by \$20,000,000. This is the amount of revenue that would be derived from the proposed duty on wool and it would be insufficient.

From several influential Democrats in the House, therefore, the proposal to raise a duty on wool is being opposed. The President will be informed by some of his own supporters in the House that the movement for a slight increase in duties throughout the tariff bill will be proposed in place of the restoration of a duty on raw wool alone.

If the administration does not see fit to accept the general revision proposal, the President will be urged to issue a call for a special session of Congress to raise the necessary revenue for running expenses.

This information comes direct from one of the Democratic leaders in the House, and it is explained that the suggestion for the sale of Panama Canal bonds is being dropped.

IS SET ASIDE. The suggestion for the sale of Panama Canal bonds is being dropped. The suggestion for the sale of Panama Canal bonds is being dropped.

STRICT SHIPPING STANDARD IS RESCINDED. Representative Curry Convinces Secretary of Agriculture Houston that Arbitrary Regulation of Bureau of Chemistry Should not Apply to This Year's Crop.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) WASHINGTON BUREAU OF THE TIMES, Oct. 27.—Following protests made today by Representative Curry to Secretary of Agriculture Houston, a regulation of the Bureau of Chemistry that California oranges cannot be shipped in interstate commerce unless they contain eight parts of soluble solids to one part of citric acid will be temporarily rescinded.

No attempt will be made by the Department of Agriculture to interfere with this year's interstate shipments of California oranges, no matter what their contents, as was threatened under the regulation. The department will only prevent shipments of oranges that are heated, sweated or otherwise artificially colored.

Curry was accompanied by Edward K. Carnes of Sacramento, representative of the citrus fruit growers. The regulation was made by Dr. Carl A. Albarg, chief of the Bureau of Chemistry, last year, and would have been effective against this year's crop of California oranges whenever the fruit did not measure to the Albarg arbitrary standard.

Curry told Albarg the bureau had no lawful authority to fix an arbitrary standard for orange contents, and demanded that the regulations be rescinded. It is probable that the regulation eventually will be revoked. Florida growers also have protested to Houston.

ARMY CHANGES. TWO GENERALS RETIRE. (BY A. P. NIGHT WIRE.) WASHINGTON, Oct. 27.—Brigadier-General John P. Wisner was assigned today to command of the Department of Hawaii, relieving Maj.-Gen. William H. Carter, who retires on November 19 for age. General Wisner will be succeeded as commander of the First Brigade in Hawaii by Brig.-Gen. Frederick S. Stone, now commanding the South Atlantic coast artillery division with headquarters at Charleston, S. C. after retiring duty at Houston, Tex., Maj.-Gen. J. Franklin Murray as commander of the western department at San Francisco on December 5, when the latter retires for age.

TESTIMONY AGAINST COMPANY. Witness Declares United Concern Notified Its Customers Not to Buy From Its Rivals. (BY A. P. NIGHT WIRE.) ST. LOUIS, Oct. 27.—Testimony introduced in the hearing of the government anti-trust suit against the United Shoe Machinery Company in the Federal District Court here today was that the company brought pressure to bear on shoe manufacturers to prevent them from using machinery other than that made by the United Shoe Machinery Company.

Part of the testimony was in the form of an affidavit by Louis F. Mahler, salesman for the Universal Shoe Machinery Company of St. Louis, who said that on October 7, 1915, he asked F. C. Rand, vice-president of the International Shoe Company, why the latter firm did not buy more machinery from the United Shoe Machinery Company.

Rand's reply, according to the affidavit, was that he feared a controversy with the United Shoe Machinery Company, and, according to the affidavit, Rand showed a letter from the company warning him not to get into a controversy with the United Shoe Machinery Company by buying machinery from other concerns.

The affidavit further said that Rand asserted he could make shoes cheaper by using Universal machines, but did not dare do so lest the United Shoe Machinery Company enforce its penalties.

TO PROTECT HOME INDUSTRY.

Democrats Grope for a Substitute for the Tariff.

Talk of Applying Anti-Trust Laws to Foreigners.

Several Amendments Ready for the Clayton Act.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Oct. 27.—Legislation to aid American merchants in taking advantage of trade opportunities developing from the European war and to protect home industry against foreign competition upon the restoration of peace was considered today by President Wilson in conference with Secretary Redfield of the Department of Commerce and Chairman Davies of the Federal Trade Commission.

As a result of the conference the Secretary of Commerce will recommend to Congress the enactment of a law making selling by foreign firms at less than the cost of production here "unfair competition" punishable under the anti-trust laws. A similar recommendation will be made by the Federal Trade Commission in its annual report to Congress, which also is expected to propose an amendment to the Clayton anti-trust law to legalise combinations for the operation of co-operative selling agencies abroad.

Both of these subjects have been exhaustively investigated by the Department of Commerce and by the Federal Trade Commission, and it is probable that they will be dealt with by the President in his opening message to Congress.

FAVORS CO-OPERATION. The Federal Trade Commission has held numerous hearings throughout the country to develop information as to the need of co-operative selling agencies, and, while no report has yet been made, it is understood that the commission is practically unanimous in favoring an amendment to permit their establishment.

In considering proposals for legislation to prevent foreign firms from flooding the American markets with products at prices below the cost of production at the close of the European war, officials have rejected plans calling for tariff law amendments.

Secretary Redfield made it apparent that he believed the "anti-dumping" problem could best be met through changes in the Clayton anti-trust act.

BELGIANS WIN CONGO VICTORY. (BY ATLANTIC CABLE AND A. P.) HAVRE, Oct. 27.—That there has been heavy fighting between the Belgians and the Germans along the boundary line of the Congo Free State and German East Africa is indicated by advices just received by the Belgian minister of the colonies. These dispatches say that the German troops were beaten with heavy loss and put to flight by the Belgians on September 11, near the Ruzizi delta and on September 12, near the frontier station of Lelima.

The Belgians are reported to have captured machine guns, rifles and a quantity of munitions.

WHISKY MEN ARE INDICTED.

GOVERNMENT ACCUSES THEM OF USING THE MAILS TO DEFRAUD.

NEW YORK, Oct. 27.—Three officers and eight salesmen of two whisky concerns were indicted here today on a charge of using the mails to defraud. About \$500,000 is said to have been obtained since 1907 through the sale of cheap whisky as high grade and by the manipulation of notes by liquor dealers.

All of the officers, Adolph, Felix and Leonard Prince, were released on bonds. The bond of Felix Prince, who pleaded not guilty, is \$50,000, and the bonds of the other officers \$10,000 each. The eight salesmen have not been apprehended.

Salesmen represented, it is declared, that they were from companies with distilleries and sold in the name of the companies. Federal agents maintain the companies purchased their liquor from distillers and sold it twice the amount they paid for it. In several cases, it is alleged, notes given for liquor were discounted at local banks and delivery never made.

THE WEATHER BACK EAST. Increasing Cold in the North Indicates an Early Change in the Middle West. (BY DIRECT WIRE—EXCLUSIVE DISPATCH.) CHICAGO BUREAU OF THE TIMES, Oct. 27.—Chicago's temperature sank to 42 deg. last night, but rose to 64 deg. today under a twenty-mile south wind. Other lake cities were several degrees warmer. Chicago, Eastern States were warmer than yesterday, with considerable rain. The West and Southwest also were warmer, but clear and dry. Western Canada and the Northwest are steadily growing colder, indicating an early change in the Middle West. Other temperatures:

TRY THIS FOR A COLD—IT'S FINE!

"Pape's Cold Compound"
ends severe colds or grippe in few hours.

You can end grippe and break up a severe cold either in head, chest, body or limbs by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dullness, feverishness, sore-throat, sneezing, soreness and stiffness. Don't stay stuffed-up. Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice and causes no inconvenience. Be sure you get the genuine.

BRITISHERS FOUND GUILTY OF VIOLATING NEUTRALITY

By Stipulation, the Verdict Returned Against Blair and Addis will be Taken to the Supreme Court and if Confirmed a Resort to Diplomacy will be Had. English Agents Freely Admit Recruiting of Men.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, Oct. 27.—Ralph K. Blair and Dr. Thomas Addis were found guilty today of conspiring to hire and retain men in the United States for British military service on an instructed verdict by Judge Maurice T. Doelling in the United States District Court. Blair and Addis were found not guilty. The case against Blair, Kenneth Croft and Harry G. Lane were not considered.

The Blair-Murdoch Company also was found not guilty.

Stipulations were filed by prosecution and defense that an instructed verdict should be given by Judge Doelling. A jury was impaneled as a matter of legal procedure.

Counsel for the defense stated an appeal would be taken. It was reported that the British consulate, which was represented in court during the trial, urged such a course.

Judge Doelling's findings conformed with the action of John W. Preston, who did not press the case against Blair and Addis, he said, he considered merely as "tools."

Stipulations were returned along with the trial, urged such a course.

More than \$1,000,000 was alleged by the government to have been spent in the alleged recruiting.

The stipulations filed with Judge Doelling admitted funds for recruiting men were furnished by A. Carnegie, Ross, British Consul here; that 155 men were recruited; that headquarters were maintained where the men were housed and fed; that transportation was provided.

The stipulations also admitted that the Blair-Murdoch Company was organized for the purpose of recruiting men for the British army.

The stipulations also admitted that the Blair-Murdoch Company was organized for the purpose of recruiting men for the British army.

The Pacific Slope.

EARTHQUAKE TURNS HOT WATER COLD.

PECCARIE EFFECTS OF SEISMO DISTURBANCE REPORTED IN OREGON.

[BY A. P. NIGHT WIRE.]

LA GRANDE (Or.) Oct. 27.—Reports received today from a remote district of Union county told of some peculiar effects of the earthquake which shook this section October 2 last.

A spring which had discharged hot water as far back as the oldest residents could remember has since the earthquake, turned cold, and cold spring near by has increased its flow tenfold.

At another place several miles distant a new spring has appeared in the middle of a well-traveled mountain road, necessitating the changing of the route.

TO REORGANIZE RAILROAD.

Application is Filed by Receivers of Northern Electric to Issue Two Millions New Stock.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, Oct. 27.—Application for approval of its reorganization plan was filed today with the State Railroad Commission by receivers for the Northern Electric properties.

The plan submitted provides for the transfer of all property to a new corporation and the issuance of stock to the par value of \$100,000,000 and of bonds of various sorts to the amount of \$12,500,000.

The system operates electric lines in and about Sacramento, Chico, Colusa, Marysville and Colusa.

The plan contemplates adoption of the reorganization scheme by November 15. Under the plan the corporation will be controlled by a board of directors, four each chosen by three classes of bondholders, one by unsecured creditors and one by the holders of notes.

The new stock would be placed in trust for five years for sale at not less than \$2,500,000. The proceeds would be distributed among unsecured creditors.

A working fund of \$500,000 would be furnished by the Sloss interests in consideration of a release from further liability except toward unsecured floating debt creditors. Under the plan bondholders would be given new bonds, covering bondholders, note holders and other creditors would receive a percentage of their claims.

The plan would provide for the payment of \$500,000 in five months for prior claims, maintenance and equipment; \$5,000,000 general mortgage bonds; \$1,000,000 in new bonds to replace the first mortgage bonds of the principal company. All would bear 6 per cent interest.

The companies asked permission for a public hearing on the plan of reorganization, at which all the interests would be represented.

The application stated: "Owing to the number of debtor corporations, with their numerous respective bondholders and note holders and the various relations existing between the many interests involved, an extremely complicated situation is presented. The plan now presented is believed to be the only one that can be carried out. The only alternative is foreclosure, litigation and expense."

LIABILITY INSURANCE.

Right of State Insurance Commissioner to Fix Rates Sustained by Judge Stewart of San Francisco.

[BY A. P. NIGHT WIRE.]

SAN FRANCISCO, Oct. 27.—The right of J. E. Phelps, State Insurance Commissioner, to fix liability insurance rates and designate accepted companies under the workmen's compensation act was upheld today by Judge George A. Stewart in the Superior Court. The decision was given in a favorable ruling on a demurrer interposed by Philip H. Jones, who is insured by Dyer Bros., owners of an iron works.

CORNER-STONE OF CATHEDRAL.

Protestant Episcopal Diocese of Arizona to Hold Exercises at Phoenix Next Sunday.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

PHOENIX (Ariz.) Oct. 27.—The corner-stone of the new cathedral of the Protestant Episcopal diocese of Arizona will be laid here on Sunday by Dr. George A. Briggs, Grand Master of the Grand Lodge of Masons of the State, assisted by a distinguished body of Past Masters and other Masonic dignitaries, as well as the officers of the Grand Lodge.

The group of buildings, which will occupy a commanding site in the northern part of the city, will consist of the cathedral proper, a parish house and a rectory. The cathedral will be a Gothic Revival structure, and will be used as a church until the cathedral itself is finished.

The cost of the buildings is estimated at \$125,000. In addition to the laying of the corner-stone by the Masonic Grand Lodge, there will be an imposing church ceremony.

END BOAT INSPECTION.

MILWAUKEE (Wis.) Oct. 27.—The inspection of Great Lakes boats by a special board of supervising inspectors appointed by William C. Redfield, Secretary of the Department of Commerce, following the Eastland disaster, came to a sudden conclusion today. The inspectors, who had just concluded their work here, received word to return to their homes and be prepared to supervise enforcement of the seamen's law, which becomes operative November 5 throughout the country.

Verdict.

NO CHANCE FOR ALLIES IN THE DARDANELLES.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Oct. 23, 9:08 a.m.—In a lecture last night on the Dardanelles operations Capt. Ellis Ashmead-Bartlett, the British representative in that campaign, said that although the allies were firmly established in the Dardanelles, he did not think there was any chance of a further advance.

"The Turks are too numerous and skilful," said Capt. Ashmead-Bartlett. "Despite their losses there are now not less than 800,000 Turks under arms, and the longer they fight the more formidable and experienced they become in the methods of defense. With the participation of Bulgaria we can no longer hope to get through to Constantinople."

UPHOLDS ABANDONMENT OF GALLI POLI.

EPISCOPALIANS TO PARTICIPATE. Will Send Delegates to the Panama Conference. Five Members Who Resigned Refuse to Reconsider. House of Bishops May Call a Special Convention.

(BY A. A. WORTH WIRE.) NEW YORK, Oct. 27.—The House of Bishops of the Protestant Episcopal church, after a spirited conference lasting two days, voted to send delegates to the Panama interdenominational missionary conference, to be held in February. The vote was 10-5, the five dissenting members being those who had resigned from the House of Bishops and refused to reconsider their resignation.

After a long series of arguments today the board adopted a resolution that "it shall be the purpose of the Panama conference to recognize all elements of truth and goodness in all forms of religious faith," and also stating that the Episcopal board delegates will attend the congress with "no purpose, authority or power of committing the board to co-operation with any denomination."

During the discussion it developed that the main objection among members of the Protestant Episcopal church to the Panama congress was not based upon the fact that the Episcopal church had declined to participate, but upon a question of whether or not the board had authority to authorize delegates to participate, and upon a question of whether or not the board had authority to authorize delegates to participate.

The quarterly meeting adjourned without taking any action upon the resignation of five members of the board, who had resigned from the board of the Protestant Episcopal church to the Panama congress.

The five members in question were the Rt. Rev. Reginald H. W. Wainwright, bishop of the Diocese of New York; the Rev. Dr. William Manning, rector of Trinity church, New York; the Rev. Dr. G. G. Williams, bishop of the Diocese of Maryland; the Rev. Dr. S. D. Williams, bishop of the Diocese of Michigan; and the Rev. Dr. S. D. Williams, bishop of the Diocese of Michigan.

The Rev. Dr. S. D. Williams, bishop of the Diocese of Michigan, stated that he had resigned from the board of the Protestant Episcopal church to the Panama congress because he believed that the board had no authority to authorize delegates to participate in the conference.

The Rev. Dr. S. D. Williams, bishop of the Diocese of Michigan, stated that he had resigned from the board of the Protestant Episcopal church to the Panama congress because he believed that the board had no authority to authorize delegates to participate in the conference.

The Rev. Dr. S. D. Williams, bishop of the Diocese of Michigan, stated that he had resigned from the board of the Protestant Episcopal church to the Panama congress because he believed that the board had no authority to authorize delegates to participate in the conference.

THE CITY
AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Congressman Will Speak.

Congressman Randall will speak before the Los Angeles W.C.T.U. tomorrow afternoon at 2 o'clock in the First Methodist Church.

Sunday-school Dress-up Party.

The children of St. Athanasius Episcopal Sunday-school will hold their annual dress-up party in the parish house, No. 408 Carter avenue, this evening.

To Attend Water Conference.

City Attorney Stephens left last night for San Francisco, where he will address the State Water Problems Conference on the subject of "Municipal Water Problems."

War Veterans' Whist Party.

Roosevelt Auxiliary, U.S.W.V., will entertain with progressive whist tomorrow evening at the home of the auxiliary president, Mrs. Alice Wadsworth, No. 1611 East Forty-fifth street. Prizes and Halloween favors will be given.

Women in Government.

Councilwoman Lindsey will give a lecture before the members of the Turverein Germania at No. 212 South Figueroa street this evening on "The Woman in the City Government." There will be a musical and literary program, open to the public.

Locomotive Engineers' Ball.

The twenty-fourth annual ball of Golden State Division, No. 164, women's Auxiliary to the Brotherhood of Locomotive Engineers, will be given Saturday evening, the 28th inst., in Kramer's Hall, No. 912 South Grand avenue. Extensive preparations are being made for this event.

For Needy Indians.

Charitable people wishing to do good may send clothing, food or money to Rev. John J. O'Brien, St. Boniface's Industrial School, Banning, Cal. Anything sent to the above will be assisting in the care of more than 160 Indians who are not receiving government aid and who are needy.

Memorial for Bishop.

The Newman Club held a memorial meeting in remembrance of the late Bishop Conaty at the Hotel Clark last evening. Charles C. Conroy read a paper on the life of the late bishop and there were several impromptu talks. I. B. Dockweiler presided and covers were laid for forty members.

Circulan Club.

At the weekly luncheon of the Circulan Club today at the Hotel Clark, Arthur B. Mass will speak on "Application of Chemistry." The chairman will be Percival E. Woods. Over 100 members had reserved plates. Today's meeting will mark the beginning of a six weeks' campaign for new members.

New Mexico Folk to Meet.

An interesting program has been arranged for the meeting of the New Mexico Society tonight in the Times assembly-rooms. The Potter sisters will be in charge of the program, which will include fancy dancing and musical numbers. Refreshments, cards and dancing will follow. All former residents of New Mexico are invited.

Proximo Club Luncheon.

Presiding Judge York will be the guest of the Proximo Club at a luncheon to be given tomorrow noon at the Westminster Hotel. He will speak on "The Trials and Tribulations of a Judge." Tuesday evening about thirty members of the club were guests of S. J. Keith at his home, No. 1589 Shatto place. A feature of the entertainment was the privilege given the guests of seeing the heavens through a five and one-half-inch telescope.

Bishop Bristol Here.

Bishop Frank M. Bristol of the Methodist Church was in the city yesterday morning on the way to San Diego, where the semi-annual convocation of the bishops of that church opens today. His home is in Omaha. The twenty or more bishops who will attend the meeting in the southern city will come to Los Angeles next Sunday and Monday for a series of important religious gatherings. Bishop William F. McDowell will preach at the First Methodist Church next Sunday morning.

Lecture on Astronomy.

The first of a series of lectures by Edgar Lucien Larkin, the astronomer and physicist, will be given in the auditorium of the Y.M.C.A. on South Hope street this evening. Mr. Larkin, who has written many works on astronomy, has taken charge of the new astronomical department of the Y.M.C.A., and each week will give an illustrated lecture on some phase of modern astronomy. His first lecture will be on recent discoveries of the heavens and will deal mostly with the remarkable advances of celestial spectroscopy and photography.

—and the Worst Is Yet to Come

From Abroad.

MISSIONARIES
MEET TODAY.CONVENTION OF METHODIST
CHURCH SOCIETY.

Children's Rally on Saturday will be one of the features of interesting program which has been mapped out for three days' session.

An interesting feature of the international convention of the Woman's Foreign Missionary Society of the Methodist Church opening this morning at Trinity Auditorium will be the junior rally to be held at 2 o'clock. The children's mass meeting is made an important event of each convention.

About 100 missionaries are expected to attend the gathering. The children will have an opportunity of seeing the workers from foreign fields in native costume and of listening to their stories of heroic service in the far-away corners of the world.

The Methodist Sunday-school, which sends the largest delegation in proportion to the size of its junior department, will be given a life membership in the convention. The conference will be given a life membership in the convention. The conference will be given a life membership in the convention.

The convention programme will open at 9 o'clock this morning with an attendance rally. A student rally will be held at 3 o'clock tomorrow afternoon. A young people's rally will be held tomorrow night. The conference will close with a banquet at Hamburger's cafe Monday night, when twenty Methodist bishops will be the guests of honor.

A reception to the delegates will be held in the assembly room of the Chamber of Commerce Saturday evening. It will be open to all interested. Dr. Alfred J. Scott will deliver the address of welcome.

CRUSHED UNDER
SAWTELLE CAR.TERRIBLE INJURIES MAY PROVE
FATAL—INCEVILLE ACTORS
HURT.

[LOCAL CORRESPONDENCE]
SANTA MONICA, Oct. 27.—Dr. J. P. Le Fevre, 70 years old, of No. 802 Seventh street, well known in the bay district, was perhaps fatally injured this afternoon when he was struck by an eastbound Sawtelle car at Fourteenth street and Santa Monica boulevard.

Dr. Le Fevre was about to board the westbound Sawtelle car and crossed, witnesses say, in front of the other car. He was thrown beneath the wheels and terribly injured, his right leg being so badly crushed that it was necessary later at St. Catherine's Hospital to amputate the member.

Besides, his left arm and left leg were broken, the collarbone was fractured on the right and left sides, and physicians say that he may be suffering from the incipient effects of a basal skull fracture.

Dr. Le Fevre, who came here shortly after the fire at San Francisco, was well known in the northern bay district up to the time he took up his residence here.

TRAMPLED IN CHARGE.
W. M. Bernie and H. D. Beck, motion picture "soldiers," rehearsing in a German charge in a picture being taken at Inceville, are in St. Catherine's Hospital suffering from injuries received in a charge from an unexpected quarter.

The two men were strenuously making war upon supposed fighters of the Entente allies when a team of horses became frightened and trampled them. Their injuries consist mostly of painful bruises inflicted by the horses' hoofs.

BUSINESS BREVITIES.

THE WEATHER.

[Official Report.]

LOCAL OFFICE, U. S. WEATHER BUREAU, Los Angeles, Oct. 27.—[Reported by Fred A. Carpenter, Local Forecaster.] At 5 o'clock a.m. the barometer registered 30.02; at 5 p.m., 29.98. Thermometer for the corresponding hours showed 61 deg. and 74 deg. Relative humidity, 5 a.m., 61 per cent.; 5 p.m., 63 per cent. Wind, 5 a.m., northwest, velocity 4 miles; 5 p.m., southwest, velocity 5 miles. Highest temperature, 70 deg.; lowest, 54 deg. Rainfall for season, trace; last season, .20 of an inch. Barometer reduced to sea level.

WEATHER CONDITIONS.—The northernmost storm has moved eastward along the northern boundary of the country and is now central in the vicinity of the Wisconsin. The barometer continues low over the Florida Peninsula and Southern Arizona. Rain has fallen in Western Washington and Oregon, Florida and the North Atlantic States. Elsewhere the weather is generally fair. A loss of high pressure prevails over the greater portion of the country, reaching from the Pacific to the Atlantic. The temperature has fallen over the Central and Southern States and risen slightly over the West. High winds are reported from Western Washington. Under the influence of the high-pressure area fair weather will continue in this vicinity for another thirty-six hours.

LOCAL FORECAST.
For Los Angeles and vicinity: Fair Thursday; western winds; light west wind.

STATE FORECAST.

WIZARD LEARNS SPEED SECRET.

Greeted in Southland with Film Demonstration.

Edison is to Devote Today to School Children.

To San Diego Tomorrow and Back Here Sunday.

Thomas A. Edison, the apprehender of nature's secrets, had the secret of speed exemplified to him yesterday by the motion-picture folk of the Southland.

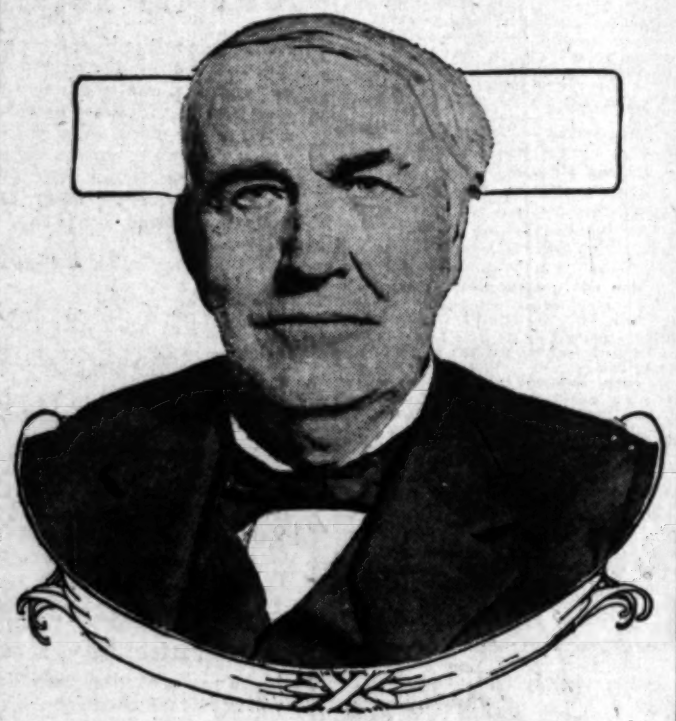

As Mr. and Mrs. Edison and party alighted from the private car Superb at Santa Barbara at 10:30 o'clock yesterday morning, a camera man reported the arrival to the extent of about 100 feet of film. Another 100 feet was used in the 200 feet that separated the private car from a waiting automobile, while nearly 1000 feet went into a luncheon scene at the home of R. F. Raymond at Montecito.

Then, while Mr. and Mrs. Edison and party made a detour to Santa Barbara for a short visit with Mr. and Mrs. Fagan, a high-powered automobile hurried its way over the mountain road, with the film negative, 100 miles by road, to the developing plant of the Universal Film Manufacturing Company, and at 4:30 o'clock last night the wizard of electricity and his wife saw themselves walk, as in the film, "These pictures have certainly been made in record time."

"This is a surprise, indeed," said the wizard of Menlo Park, as he viewed the film. "And it isn't like New York, either—all along one street—arriving here at close to 9 o'clock."

(Continued on Second Page.)

Master Inventor Guest of Los Angeles.

Thomas Alva Edison, posed especially for The Times upon the arrival of the electrical wizard in the city last evening.

NO ONE HAS BROUGHT WORLD MORE COMFORT.

THOMAS ALVA EDISON, is the world's greatest inventor. His genius has done more to bring comfort and happiness to mankind than that of any other individual.

The comforts, conveniences, increased efficiency and advanced methods of living that have come as a result of his individual and unaided efforts make up a list of achievements that if attributed to the combined genius of a whole nation over an entire century would be felt a glory to make every individual of that nation justly proud.

Nine hundred inventions have been perfected by Mr. Edison in the fifty years of his work. He is now 68 years of age. His first invention, a telegraph repeater, was perfected in 1844, at the age of 17.

Most important of Mr. Edison's inventions is probably the incandescent lamp. Secondly comes the phonograph. Either of these accomplishments is alone sufficient to give Mr. Edison rank among the greatest inventors of the world.

The carbon telegraph transmitter, quadruplex telegraph, alkaline storage battery, kinesiograph, kinephonograph, microtome—for detection of small changes in the atmosphere—and a host of telegraph, electric and household inventions have made the inventive genius of Mr. Edison a means for improvement and progress in every section of the world, even, it might be said, in the home of nearly every civilized family on the globe.

GRAND JURY ON "FIXING" TRAIL.

Probable Sensation Centers About Schmidt Jury.

Improper Approaching of the Talemens Hinted At.

Detective and Woman Friend of Accused Summoned.

That the grand jury is taking cognizance of the recent outrageous attempts to influence prospective jurors in the Schmidt-Caplan cases became apparent yesterday. A searching investigation regarding the distribution of posters and circulars, the mailing of circulars to the homes of talemens and alleged improper approaching of prospective jurors since the beginning of the Schmidt trial is to be carried on, according to general belief.

W. E. Cavanaugh was summoned by the inquisitors yesterday. He appeared at the District Attorney's office in the afternoon and waited for some time to go before the grand jury. Finally he was instructed to make his appearance before that body at 10 o'clock tomorrow morning.

Cavanaugh is understood to have been an investigator of talemens on behalf of the defense in the Schmidt case, and he is also said to have been connected with the investigation of jurors in the Darrow and McNamara cases. He has been located at Venice for some time, and during the period that a defense attorney, Fairall, was chief counsel for Schmidt it is said there were frequent conferences between Cavanaugh and Fairall at Venice. He also is understood to have been much in conference with Clarence Darrow preceding and during the trial of the latter and Darrow is thought to have received mail and messages through Cavanaugh's mediation.

Cavanaugh has been an active figure in the court since the beginning of the Schmidt case, passing in and out and appearing before the grand jury and counsel slips of paper. Of course, his possible connection with the rumored improper approach of jurors can only be a matter of conjecture, but it is obvious that no information would be obtainable from any officers connected with the grand jury; but his summons to appear creates cause for much interesting conjecture.

An interesting incident of yesterday was a visit to the District Attorney's office by a woman who gave her name to persons in the corridor as Miss Marie Lattor. After her appearance before the grand jury, she was served with a subpoena to appear as a witness for the State in the Schmidt trial. She declared that she was a friend of Schmidt and did not want to appear as a witness.

She stated that she had known Schmidt in Chicago. It is understood that the woman is a Socialist with anarchistic tendencies and that she has been active in the social work of the Socialist party in Chicago and other places. While she gave the name of Marie Lattor, developments of yesterday indicate that this is not her real name, but that she is the wife of an upholsterer who was located in San Francisco for some time and who then came to Los Angeles, and resides here under another name than that by which he was known in the Bay City.

She was served with a subpoena to appear before the grand jury yesterday afternoon. It is probable it will develop that this woman will be an important witness in the presentation of the case, although she has declared yesterday that she has no desire to appear as a witness.

While the defense's new counsel is putting in full time in studying the case during the week of adjournment of court allowed for this purpose, the District Attorney and associate counsel have made good use of this time in perfecting numerous details of their case and all will be in readiness for a resumption of the court work Monday morning. The week's delay will probably result in greatly expediting the trial.

It is probable that the jury box will be filled again Monday forenoon, as there are now eleven men in the box. Then the exercising of peremptory challenges will begin again, by which it is probable that a good portion of the next week will be required to complete the jury.

Short Run for Other People's Money.

Howard Main, the fugitive bank messenger who admits the theft of \$4000 with which he was entrusted. This photograph was made at the Southern Pacific station last night when Main returned from El Paso under arrest.

"HAD A CORKING TIME," SAYS BOY BANK THIEF.

DEBONAIR and smiling, his body richly clad in the expensive clothes purchased with part of the bank money he had taken, Charles H. Main, the nineteen-year-old bank messenger who disappeared last Friday with \$4000 belonging to the Commercial National Bank, arrived from El Paso last night in company with T. W. Shannon, the Pinkerton detective, who traced the boy to the Texas city and arrested him there Tuesday.

Young Main appeared to consider the entire proceedings a huge joke, with himself in the role of the principal prisoner. Police Detective Leon met the Pinkerton man and prisoner at the Southern Pacific station, and transferred the boy to the City Jail, where he was booked under the charge of felony embezzlement.

C. A. Main, the father, and Mrs. W. C. Layman, the mother, went to the station separately last night to meet their son. No word was passed between the two, who have been estranged for several years, and their greetings to the boy were given apart. Yet each parent kissed and hugged the lad, the mother weeping silently. Each refused to make statements last night, but indicated they would stand by the lad during his trial.

Young Main was the only person at headquarters last night who failed to take the matter seriously. "I had a corking good time," he laughed. "I have always wanted to see the world. Two years ago I graduated from Polytechnic High School. 'Right after I left school I had a feeling I wanted to travel. So I left home and beat my way north to Vancouver. I was gone eighteen months, and had a fine time. Up north I worked around and made enough money to come back. I got back to Los Angeles a month or so ago. My father, who works in the Hellman bank, got me a job with the Commercial National as a messenger."

"I had been working there about nine days, when they sent me to take the \$4000. I got it, then I jumped a jitney bus, intending to beat it back to my bank."

"I was while riding the jitney that I first thought of beating it for some place else. At Tenth and Main streets I got off and bought a motorcycle. I

CHARM IN NEW FLOWER-FACES.

Broadway Show Continues to Grow in Beauty.

Thousands Flock to Admire Fragrant Displays.

Van Nuys People to Invade Posydom Today.

The fifth day of the Broadway Automobile and Flower Show brought thousands of persons from throughout Southern California to witness the beauties of this wonderful exhibit. They found the entire show fresher and brighter, and with a greater wealth of floral display, than at any time since the doors were opened.

Last night an enormous crowd packed all four floors at the show, and such was the press at the doors that the management stopped the sale of tickets, deeming it would be uncomfortable for more persons admitted to the building. The attendance at the show has become so huge that it is officially announced the best time to view the exquisite exhibits is between 10 a.m. and 5 p.m., before the leisure of evening has brought the rush.

It is just one of the remarkable features of this truly remarkable show that it grows better every day, and is more extensive now than ever. Yesterday morning brought rearrangements of various important displays, and their restocking with fresh blossoms right from the gardens. Then there were entirely new exhibits installed that made striking features.

It was also "Movie Day," and there was the added attraction of the presence of many popular film favorites; both afternoon and evening. Every floor presented special attractions; every booth and exhibit had its special admirers.

The Henry W. O'Malley exhibit, placed early yesterday morning, was admired by thousands during the day. This exhibit was prepared by Benjamin Disley, who has been an important exhibitor and cup winner at Glen Cove and Madison Square—the two big floral shows of the East. The exhibit is composed of a miscellaneous collection of chrysanthemums, ferns and potted plants, some of them very rare specimens.

QUEEN OF FLOWERS.

Another striking new exhibit was that of Mrs. Frank Lewis of Hawthorne. Mrs. Lewis has conducted a really educational work in roses since this show opened. At the great circular table where the display is made

Suits Tailored to Order \$35.00 and Up

What One Customer Said:

"I want to thank you for persuading me to have my suit made in your store. I have paid as much as \$125.00 elsewhere and got nothing as satisfactory as the suit you made me for \$50.00."

As a general thing we do not quote customers, but the downright sincerity of the above statement so impressed us that we could do no less than publish it.

Our Leader—Fine Chiffon

Broadcloth Made-to-Measure, \$42.50

Think of having a beautiful chiffon broadcloth tailored-to-your-measure in one of the stunning late models of the winter season for \$42.50!

—Finest all silk satin lining and findings the very best.

—Choice of black or any colors.

—Satisfaction positively guaranteed.

—Select goods and leave order at dress goods counter—Main Floor.

HALF PRICE

Imported Figured Velvets

on Chiffon and Charmeuse Grounds

\$10.00 and \$12.00

Values, yard

—Opportunity of opportunities!

—Every woman who delights in fabric richness has admired these charming velvets.

—Nothing handsomer or more effective for evening and afternoon wraps.

—36 and 40 inches wide in white, fuchsia, pearl gray, marine blue, Balkan blue and golden brown.

—Thursday special at \$6.00 yard. Silk Counter; Main Floor.

Winter Wash Weaves

Variety and Prices equally attractive.

Pangora Silks, Yard, 35c

A very dainty fabric of silk and cotton specially manufactured for underslips, Waists and Dresses.

—Colors in Black, Navy, light Blue, Heliotrope, Maize, Pink and White; 26 inches wide.

Devonshire Cloth 25c

Popular fabric in all the new fall patterns for Dresses, Waists and Men's Shirts. This cloth is strictly fast color and wears like cloth, stripes and plain colors.

Bath Robe Flannels 35c

There never have been better quality Bath Robes shown in Los Angeles at 35c a yard and no prettier ones at any price. Also ideal for smoking jackets and house coats.

PERSONALITY.

Personally Mr. Edison is one of the most remarkable men in America today. His keenness of observation, energy, thoughtfulness to details for the comfort of others, love for children, philanthropy and democratic access to all are attributes furnishing a wealth of anecdote and praise.

The prodigy of Mr. Edison's brain made itself evident at the age of 12, when he had mastered Hume and Gibbon, a number of histories, and many scientific treatises. About this time he rubbed sleeves with the world as a newsboy, and soon showed a mind to business by operating a news stand, book store and vegetable market, as well as serving as newsboy on the Grand Trunk Railway, employing in all eleven boys.

From a grateful station master, whose child he saved from beneath the wheels of a locomotive, he learned telegraphy, and at the age of 16 his inventive genius was awakened when he applied his knowledge to active telegraphy.

The perfection of his automatic telegraph repeater, at the age of 17, brought New Orleans and New York into direct communication. But he suffered hard knocks from the world from this time until he became 24 years of age, the glory and commercial reward of his devices being taken by others. In 1844 he went to New York, and the era of his success and prosperity opened. His first glory-winning commercial device was

FIND SLAIN BABY GIRL.

Finger-marks upon Throat of Corpse in Shed Behind a Vacant House.

With the marks of clenching fingers about her throat, the body of a baby girl, less than 24 hours old, was discovered early last night hidden away beneath a foot tub in an old shed behind the rear of No. 622 South Hope street. Police Detectives Ziegler and Kline declare the child was murdered.

The body was discovered by J. W. Thomas as he was cleaning the adjacent yard. The residence has been vacant for some time. The body of the child was taken to the Pierce morgue.

According to the detectives, the tiny girl shortly after birth was wrapped in rags and hidden away in the foot tub. Doctors who examined the body say she lived some time after being placed in the tub, and when found, had been dead about twelve hours.

The police are searching for the child's mother.

PRIMARY LAW A WORSE MUDDLE THAN EVER NOW.

Defeat of Two Anti-party Laws and Nonreferral of Two Others Means Either Special Session of Legislature or Fight in Highest Courts to Straighten Matter Out—Summary of the Results.

BY BURD ARMSTRONG.

FAST upon the heels of the defeat of the anti-party laws and the overthrow of the political domination of Hiram Johnson in California there looms another struggle which will end either in the highest court of the State or in a special session of the Legislature.

The defeat of the anti-party laws has left the election machinery in a feebly muddled, due to the deliberate purpose of the Johnson administration to force the state to invoke the referendum against four separate laws.

Two of these laws, one relating to the destruction of party laws and the other affecting the new form of ballot, were defeated. A third law governing registration and providing that no party affiliation should be shown on affidavits of registration, was not referred by the opponents of the measure, nor was the fourth law,

regulating the Presidential primary next May.

These two laws, according to the best legal talent obtainable when the referendum petition was started against the two just defeated, would be defeated by implication if the referendum was sustained. Gov. Johnson asserted during his recent campaign that no matter if the people did vote down the no-party laws there would be no party laws, for the registration law was not referred and that law wiped the party affiliation from the registration oaths.

SPECIAL SESSION?

At Sacramento there is being considered a plan to call a special session of the Legislature to remodel the direct primary law. In Los Angeles a movement is afoot that will make a special session unnecessary, for it will throw into court the question of whether the affidavit of regis-

BAIL DESPITE GRIM CHARGE.**Two Policemen, Facing Trial for Murder, Quit Cell.****Dark Records of Slain and Wounded Laid Cited.****Twenty-five Thousand Bonds Open Jail Doors.**

Police Sergeant William M. Cahill and Patrolman Samuel Shammo, jointly charged with the murder of Charles Chester Nolen, were yesterday afternoon released by Justice Hineshaw on bail of \$12,500 each after a determined fight on the part of Deputy District Attorney Doran to prevent such action.

This is one of the few cases on record, and probably the first in the history of Los Angeles, in which persons accused of murder have been admitted to bail. Attorneys Ford and Dominguez cited a Supreme Court decision to the effect that a policeman who in pursuit of a reputable citizen had killed him on his refusal to halt after the cry "stop thief" had gone forth, was merely acting in accordance with his duty.

In addition, Attorney Ford brought forth records of young Nolen's past that were damaging and went to show that he was sought at the time of the shooting on charges of complicity in a diamond theft. He also brought forth committed statutory offenses against two young girls. The juvenile court records of the dead boy, from the time he was 1 year old, were also brought into the argument for admission of the officers to bail.

Frank Ward, the only living witness aside from the driver of the car in which the officers rode and the two defendants, was shown to have a criminal record and was sought for the alleged theft of the motorcycle on which the boys tried to get away from the police. The transcript of his statement for use in the coroner's inquest was also introduced and from this he was quoted as admitting that he and Nolen had heard the demands of the officers to stop, but that instead of complying with the order they had made further effort to escape.

"The Supreme Court decision goes to show that an officer who would not have pursued just such a course as these two accused men would be liable to severe censure for failure to do his duty and that officers have a right to go a long way to apprehend a man, even when there is only suspicion and no absolute charge against him," said Attorney Ford.

"There was absolutely no provocation for the shooting by the officers," said Deputy District Attorney Doran. "The shots, we contend, were not fired in the air or at random, but direct at the boys, which permits no other presumption than one of deliberate murder."

Justice Hineshaw decided there is great ground for doubt as to any malice on the part of the officers. He also argued that as they had not become fugitives, having given themselves up voluntarily after the shooting, they should be allowed freedom on bail, which he fixed at \$25,000 each, on the previous assurance of one of the attorneys that their clients could secure any amount of bond necessary to guarantee their remaining in Los Angeles.

The attorneys immediately changed their argument to the effect that \$25,000 was prohibitory, but that \$10,000 should hold them. Attorney Ford also hinted one of the defendants was wanted at home, owing to the expected arrival of the work within a few days. Justice Hineshaw finally reduced the bail to half of what he had originally asked. The bondsmen, who qualified in the courtroom, are Joseph Giola for Sgt. Cahill and F. L. Smith for Patrolman Shammo, others who offered their assistance being unacceptable to the court at the time.

The other two bondsmen were secured later in the evening and are Hermann Woltermann for Cahill, and M. D. Smith for Shammo.

REVIVE OLD CASE.
Disbarment Fight of Kern County Former Assemblyman Pardoned for Bribery up Again Today.
An almost forgotten page of the political history of California will be reviewed in the District Court of Appeal this morning, when the petition of the Kern County Bar Association for the disbarment of E. J. Emmons, a former member of the California Assembly from Kern county, on the ground that he had been convicted of a felony, will come up for argument.

The records in the case show that Emmons was convicted in the Sacramento Superior Court, in May, 1904, for asking and receiving a bribe, and sentenced to five years in San Quentin; that in November, 1909, he was released on parole by the State Board of Prison Directors; that on June 28, 1910, he was granted a full and unconditional pardon by Gov. Gillett, on the recommendation of the State Board of Prison Directors.

After the pardon of Emmons he returned to Bakersfield and resumed the practice of his profession, conducting himself properly in every respect. In the argument to be made in his favor today it will be claimed that the power to pardon extends to every offense known to the law, and may be exercised at any time after its commission; a pardon reaches both the punishment prescribed for the offense and the guilt of the offender, and when the pardon is full it releases the punishment and blot out of existence the guilt, so that in the eyes of the law the offender is innocent as if he had never committed the offense; it removes the penalties and restores him to all his rights. It is claimed on behalf of Emmons that some of his personal enemies are at the bottom of the prosecution. The petition was originally filed in the State Supreme Court.

THIRD BOND ELECTION.
[LOCAL CORRESPONDENCE.]
EAGLE ROCK, Oct. 27.—For the third time within a year the local school board has called an election for November 23 on issuing school bonds. The last effort, held last Friday, resulted in defeat of bonds by 210 to 112, lacking five votes of the necessary two-thirds. The call is for \$15,000. This will be just two days after the election called to vote on the question of consolidation of Eagle Rock and Los Angeles.

Music and dancing this afternoon and evening, at the Broadway Automobile and Flower Show, Boston Store Building, opposite City Hall.

FINEST WILL SHOW PACES.**To Pass in Review Before the City Hall: Department Inspection Here.**

Four hundred policemen in their winter uniforms of blue, with the entire mounted squad and all police automobiles headed by the full police band, will march past the City Hall at 1:30 o'clock this afternoon to be inspected by the Mayor and the Chief.

The officers and machines will form at Ninth and Olive streets and march in column of squads on Ninth street to Broadway and then north on Broadway, forming a column of companies as they pass in review.

Just before the general inspection the detectives will be inspected by the Chief in the assembly-room at Central Police Station, and at the same time as the general inspection all speed and motorcycle officers and their machines will be inspected at North Hill and California streets.

Following inspection olive-drab uniforms will be discarded.

Greatest Inventor.**(Continued from First Page.)**

the perfection of the stock printer, followed by the gold printer and automatic telegraph system, great boons for the stock brokers.

In 1876 Mr. Edison, after many years associating manufacturing with inventing, decided to give up the manufacturing work and devote his entire energies to invention. He then organized the Edison Electric Company at Menlo Park (West Orange), N. J., twenty-four miles from New York City.

NINE YEARS FOR LAMP.

For nine years here he experimented with a successful incandescent lamp, until at last he fell upon a bamboo fiber filament for the carbon and produced the first incandescent light of commercial success.

In 1878 Mr. Edison first exhibited his phonograph, then in a tentative stage. It was while perfecting the telephone that Mr. Edison was induced to make experiments which led to the phonograph. His assistants had discovered that the sheepskin slippers, when placed on the telephone, when held to the mouth and talked against would produce a guttural sound. Mr. Edison while passing through the shop playfully touched a steel point protruding through a piece of sheepskin which one of the workmen was "singing" through. A vibration of the steel point attracted his attention. He retired to his room and commenced drawing diagrams for new machinery which resulted in the first phonograph.

Since that time the development of Mr. Edison's inventions was rapid. In 1891 some 400 inventions had been perfected, and this year the wizard of electricity had completed those bringing his total beyond 800.

FOR HOME INDUSTRY.

Million Club Members Will Work Actively to Make Home Products Week a Big Success.

All of the active members of the Million Club were appointed on a committee to work in the interest of Home Products Week by Mrs. Clara Shortridge Foltz, the president, in a meeting of the club yesterday afternoon at its headquarters in the Coulter Building. Mrs. James Westphall, former secretary of the club, was appointed chairman of the committee and Mrs. L. L. Roome, head of the club's social department, was made vice-chairman.

The members of the Million Club committee will confer with the Chamber of Commerce and various commercial houses in their efforts to learn how they can best promote the interests of Home Products Week. This work will not be to the club, since it pledged itself to support home industries about two years ago.

"It is not difficult to interest the women in Home Products Week," Mrs. Foltz declared. "We have been preaching this gospel for some time, so much so that the attendants in the stores have learned to offer home-made goods to women wearing our badge. The whole active membership of the club will act as a committee to work in the interest of the good cause."

Mrs. Roome announced that the club would give its next dancing party, Wednesday evening, November 3, at No. 2018 Orange street. The announcement was made that exhibition dancing would be given by George Rose Jenkins, recently of New York City.

The Special Home Products Luncheon Committee of the Chamber of Commerce reported favorable progress in their arrangements for the "Home Products Luncheon," to be held November 4. At that time are indications of a much greater demand for tickets than possible to accommodate, members of the Chamber should secure their tickets at an early date. Notice of time and place announced at a later date.

Learns Speed Secret.**(Continued from First Page.)**

last night, admittedly tired after a crowded day of sightseeing, Mr. Edison disregarded the call to supper and went to bed. This was following out his expressed intention, as members of the party stated, to make this his first vacation in forty years, an occasion for catching up on sleep. It is further supposed that he is doing it, too.

Aside from a specific and detailed denial through his acting secretary, F. D. Pagan, that he had received any threatening letters during his Pacific Coast tour, Mr. Edison declined to be interviewed or to issue any statement, last night, though he graciously consented to be photographed, and, during the process, joked on a number of topics.

One little business matter he did attend to last night, however. That was in connection with the proposed visit to the schools today. Not only did he make it emphatic that all other arrangements must be secondary to the paramount one of a pleasure hour with the youngsters, but he personally supervised the framing of details.

ITINERARY.
They are to leave the Alexandria by automobile at 1:30 o'clock, accompanied by Judge Bordwell, president of the Board of Education, Superintendent of Schools Francis, President Bulla, and Dr. A. J. Scott of the Chamber of Commerce, and J. A. Lightship, general electrical superintendent of the same company, motored out from here yesterday and met the Edison party at Calabasas. The decision to leave the train at Santa Barbara and motor here was a sort of eleventh-hour arrangement, due to Mr. Edison's dislike for riding on trains.

Though Mr. Edison took a boyish delight in the various happenings of the crowded itinerary yesterday and expressed unbounded surprise at the great material developments of the Southern member of the party, he hazarded the guess that his mind was on the little subject of airline dyes.

Previous to leaving for the West to visit the exposition, Mr. Edison's mind was engaged on the subject of dyes for that most plebeian of all articles of commerce, stockings. As his mind

school, the party will stop at the museum of history, science and art at Exposition Park. The children are to line up on the curb at each school and only a brief stop will be made.

Returning to the Alexandria at noon, the Edison party will motor to Pasadena and may also pay visits to Eagle Rock and Glendale. As Henry Ford and party are due in here at 1:20 p.m., over the Southern Pacific, to go East with the Edison party, they may join the inventor for the Pasadena trip.

By arrangement completed last night, the Edison party will motor down to San Diego tomorrow to remain over Saturday. It is expected the party will return here Sunday to go East the same day, instead of waiting until the coming week, as was originally intended.

The Edison party is composed of Mr. and Mrs. Edison, Miss Grace Miller, sister of Mrs. Edison, and William Bee, vice-president of the Edison Storage Battery Company and S. H. Stone, president of the Firestone Tire and Rubber, and Amos C. Miller, vice-president of the company, came down from San Francisco with the party, as did also B. F. Fagan, who is sales manager for the Edison Lamp Works, and is acting secretary to Mr. Edison on his Pacific Coast tour. It was Mr. Fagan's parents whom the Edisons visited yesterday at Santa Paula.

By previous arrangements, President John B. Miller of the Southern California Edison Company, and Mr. Lightship, general electrical superintendent of the same company, motored out from here yesterday and met the Edison party at Calabasas. The decision to leave the train at Santa Barbara and motor here was a sort of eleventh-hour arrangement, due to Mr. Edison's dislike for riding on trains.

Though Mr. Edison took a boyish delight in the various happenings of the crowded itinerary yesterday and expressed unbounded surprise at the great material developments of the Southern member of the party, he hazarded the guess that his mind was on the little subject of airline dyes.

Previous to leaving for the West to visit the exposition, Mr. Edison's mind was engaged on the subject of dyes for that most plebeian of all articles of commerce, stockings. As his mind

is of the kind that never sleeps, but goes on working subconsciously, there was some quiet merriment in the party yesterday over the question of whether Mr. Edison's brain was more occupied with the scenery or with the dyestuff for the article that is generally used outside of secluded quarters of the south.

While at Universal City yesterday Mr. Edison placed a copper plate, by electric light—Edison made—on a structure to house a vast assembly of Edison-made machinery. It is the electric studio of the big movie plant, and the tablet recites the fact that it was "placed, October 27, 1915, by the world's greatest electrician, Thomas A. Edison."

Henry Ford, the automobile maker, who is to arrive here today, will also visit Universal City, as well as Inglewood-by-the-Sea, having expressed a desire to see motion pictures in the making.

ARRESTED AT HOSPITAL.
Motorcyclist Crashes into Trolley Car; Gashes Head; Hears He was Driving Recklessly.
A. B. Bowl of No. 513 West Eighty-fifth street declared last night in the Receiving Hospital, as Dr. Hiller was sewing up several lacerations in his head, that he is the most unlucky man in the city. After hearing his woes the doctor agreed with him.

Mr. Bowl's troubles all started when he turned his motorcycle from Avenue 26 into Pasadena avenue and ran full into the rear of a street car. His motorcycle was wrecked and he landed on his head some feet away. When he picked himself up he found his head was smashed the worse for wear and he went to the Receiving Hospital.

Hardly had the police surgeon started to put stitches into Mr. Bowl's head when Motorcycle Officers Kiersey and Kronschenabel arrived and arrested him for reckless driving. The officers declared they had seen the accident and stated Bowl was driving his motorcycle at top speed and was taken to the jail, but later released and told to appear in court today.

ANNE OF THE ISLAND

A sequel to "Anne of Green Gables" and "Anne of Avonlea."
By L. M. Montgomery
"Anne Shirley comes back the same old Anne—beautiful, brilliant and charming. . . . In many ways this new story is the author's best. ANNE has not the humorous possibilities that she had as ANNE OF GREEN GABLES, nor is she mischievous (natural change with the accumulation of years); but she is the same sweet-tempered, cheerful girl that has made Prince Edward Island famous!"—Boston Transcript.

Rich Man, Poor Man**By MAXIMILIAN FOSTER****Author of "The Whistling Man"**

IMAGINE a pretty, vivacious girl of unknown parentage, brought up on charity in a cheap boarding-house, instructed only by little Mr. Mapy, a broken-down book-keeper, turning out to be the Granddaughter of Old Beeston, the richest man in New York!

That was what happened to Bab Wynne. Imagine the extraordinary situation further complicated by her falling heels over head in love with the star boarder, young Varick, whose father had been ruined in Wall Street by Beeston. And then imagine young Varick's emotions when he found himself in love with Bab, one of this family on whom he had vowed eternal vengeance.

This is just the beginning of a swiftly-moving story, full of quick turns, jolting surprises and happy outcomes.

Primary Muddle.**(Continued from First Page.)**

Ordinarily shall contain party affiliation of voters. In order to determine this a friendly suit may be brought against Registrar of Voters McAleer to compel him to change the form of the registration affidavit in conformity with the law of 1913. This law allows voters to state their party affiliations. But another law was passed at the last session which changed the party registration section without repealing it. On January 1 new registration will be taken. Registrar McAleer has foreseen the contingency and has incorporated in his printing contract for supplies a clause that the registration blank may be altered.

The movement to call a special election of Tuesday's polls when Gov. Johnson was slaughtered by a landslide of opposing votes. It is the purpose of the proponents of the measure to frame an entirely new primary law that will be modeled after the lines of the Governor's wishes, despite the vote of the people Tuesday.

FIFTY THOUSAND MAJORITY.
Throughout the State, as in Los Angeles county, the majority against the property idea has grown with the receipt of belated returns. The majority in the State will be nearer 50,000 against Gov. Johnson. In Los Angeles county the estimated majority will be 7000 votes.

Three city precincts, one at Wilton, and two in the San Fernando Valley, had not reported last night. The vote in each is small, but the city going against it strong.

The vote so far reported shows that in three counties a majority is being changed eliminating the freak threat of judges was given the support of the county, having over 11,000 majority in the city and county. The amendment providing for rural credits carried, the cities joining with the rural districts in supporting it. About 1000 majority was given to the cause for the amendment corrective of the issuance of bonds. The closest choice was that for the extension of the city going against it strong.

The day after election brought nothing but confirmation of the election night story. The results piled the odds higher and the decision of the people was more certain as the returns rolled in.

But in the aftermath there came some curious matters of interest. Joseph Howell of Utah, who was the first outsider to congratulate California upon its new constitution, was the first to be congratulated by the fallacious no-republican law. Congressman Howell, a two-time Republican, is since 1912. He was highly gratified with the result of Tuesday's election.

EARL QUIT.
Earl, sorely disappointed over failure to foil a road bond issue from the county, yesterday withdrew from the Municipal League, which he had joined in a sharp rebuff to the county's election verdict Tuesday afternoon.

The total vote in Los Angeles was 11 per cent. of the total registered voters. The county 18.3 per cent. The one-fifth vote further proves the unpopularity of the methods of the measure and the methods of Earl Johnson and his administration.

Single Rock precinct turned out the most voters of the election. In one precinct there were 247 votes. The smallest precinct was Burbank, No. 10, where the election officials were only able to vote. No one both turned out three ballots in the evening.

Registration was prepared for the full election, was caused than at any time in the history of election in California.

Johnston's precinct No. 11, where Asahel Johnston resides, is believed to have been the center of opposition to the measure and the county in the Johnston no-party precinct. The measure and the county in Johnston there were 1981.

Stalwart Mother Puts Love to Flight.

Mrs. Margaret Loer Botiller and her mother, Mrs. Susan Loer, whose able use of a shillelah dissuaded the groom, his lawyer and some stout friends when they tried to rescue the bride.

Primary Muddle.

(Continued from First Page.)

tion shall contain party affiliation of voters.
In order to determine this a friend-ly visit may be brought against Regis-trar of Voters McAleer to compel him to change the form of the registra-tion affidavit in conformity with the law of 1913. This law allows voters to state their party affiliations. But when law was passed at the last session which changed the party regis-tration section without repealing it, on January 1 new registration will be taken. Registrar McAleer has fore-saw the contingency and has incor-porated in his printing contract for this year a clause that the registration may be altered.
The movement to call a special elec-tion of the Legislature came at the time of Tuesday's polls when Gov. Brown was slaughtered by a land-slip of opposing votes. It is the pur-pose of the proponents of the extra-ordinary law that will be modeled after the lines of the Governor's law, despite the vote of the people.

THIRTY THOUSAND MAJORITY.

Throughout the State, as in Los Angeles county, the majority against the party idea has grown with the weight of belated returns. The ma-jority of the State will be nearer 50,000 than Gov. Johnson. In Los An-geles county the estimated majority will be 1600 votes.
The city precincts, one at Wil-son, and two in the San Fer-nando Valley, had not reported last Tuesday. The vote in each is small. The majority precincts in the county are the same.

The vote so far reported shows that three measures won a majority of the county. The amend-ment eliminating the freak short day of judges was generously sup-ported, having over 11,000 majority in the city and county. The amend-ment providing for rural credits car-ried by a majority of 10,000. The amendment to the city charter, which was the first outside Congress-ional act, was carried by a majority of 10,000. The amendment to the city charter, which was the first outside Congress-ional act, was carried by a majority of 10,000.

EARL QUIT.
Mr. Earl, sorely disappointed over failure to foist a road bond issue on the county, yesterday withdrew from the Municipal League, which was the first outside Congress-ional act, was carried by a majority of 10,000. The amendment to the city charter, which was the first outside Congress-ional act, was carried by a majority of 10,000.

Rock precinct turned out the vote of the election. In one precinct, with a registration of about 200, there were 237 votes. The small-est precinct was Burbank, No. 10, where the election officials were only one to vote. No one both-ing to vote all day and the counted three ballots in the evening.

SHILLELAH WINS; BRIDE SAYS SHE'LL LEAVE HIM.

WHEN Mrs. Susan Loer, the belligerent mother of Margaret Loer Botiller, drove the young daughter's husband out of the house with a shillelah last Monday she meant that the honeymoon of four days was ended and that they should never live together again. Since then the bride has been thoroughly convinced of her mother's purpose in swinging the "persuader," but the groom, though he still is nursing some sore spots on his head, declares he will not give up and will get his wife whether or no.
Last night while the bride was swearing lasting allegiance to her mother, the woman who put three deputy sheriffs, a lawyer and prize fighter to flight when they attempted to intercede in behalf of the groom, young Botiller was conviving with his lawyer. He had read the story of "Romeo and Juliet." In fact, he had seen Sothorn and Marlowe play it, and he could fancy nothing more appropriate in his case.
"If I can just get Margaret to the second-story window I will do the rest," he said. "When she reaches over the balcony to greet me I can throw her a rope and she can get away. Then we can escape forever that terrible shillelah and live happily ever after."
This soliloquy on the part of the

room was little more than a dream, but he did not know at the time that the bride had forsaken him. He believed she loves him as ardently as she had professed the day they ap-peared before Justice Summerfield and were married. He had not considered that the bride's mother might be as persuasive with the tongue as with the shillelah.
"My mother has shown me where I made the wrong step," the bride said to a Times reporter. "I thought I loved Solomon, but it was just puppy love, I guess. Anyhow, I am through with him and I am going to try to get a divorce."
Mrs. Loer said, as she clenched her

list, that it made no difference whether the daughter was convinced. "I don't think any girl of 18 years should be married and that settles it," she said. "I used one shillelah the other night, but the next time I will use two of them if necessary."
Attorney Clyde E. Cate, who is representing the forlorn groom in the case, said last night that his client has not given up hope of getting the bride, and there may be some develop-ments today.
The groom is the son of an aristocratic Castilian family and a grand-son of Dionisio Botiller, who died re-cently. The Botiller family is very wealthy.
Music and dancing this afternoon and evening, at the Broadway Automobile and Flower Show, Boston Store Building, opposite City Hall.

WILL CUT STAFFS.
Attaches of Federal Courts to Be Reduced Under New System for Greater Efficiency.
The plan of Atty.-Gen. Gregory to reduce expenses in the Department of Justice by cutting down the staffs of the United States District Courts, was started yesterday when C. Satterfield, chief of the division of accounts of the Department of Justice, arrived from Washington to install it in the local Federal courts.
Marshal Walton will be allowed three additional deputy marshals with the usual powers attaching to such officers, to take the place of the six attaches of the two local courts now serving, and two bailiffs and one clerk in each court. The pay of the additional deputies will be \$100 a month.
These additional deputy marshals will have power to serve persons and papers issued out of the Marshal's office, while under the present arrange-

ment the attaches have nothing to do but the particular duties relating to their position.
Marshal Walton thinks well of the proposition, as it will give him plenty of men to care for the court rooms, and help in the business of the office that he does not now have. The ap-pointments under the plan in mind will be made by Marshal Walton, and it is likely that several of the older men in age, if not in service, will be cared for by the judges who may under the law have a messenger.
RAILROAD WINS CASE.
A jury in United States District Judge Trippett's court yesterday ac-quired the Southern Pacific in the government suit for the alleged viola-tion of the hours-of-labor law, lim-iting employees to sixteen consecutive hours in twenty-four. There were thirty counts in the complaint, involv-ing conductors, engineers, firemen and brakemen on the Los Angeles-Indio service, and if found guilty the corporation might have been fined \$15,000, or \$500 in each case.

MOVEMENTS IN SOCIETY.

OVER three hundred society matrons, debutantes and other members of the younger set, who are not yet officially "out," yesterday afternoon attended one of the most handsomely appointed teas of the autumn given by Mrs. Ben D. Goodrich at her attractive home, No. 1844 South Flower street, in compliance to her grand-daughter, Miss Mary Goodrich Read, who has but recently returned from Berlin after an extensive study of music with the masters abroad. Miss Agnes Wickfield Britt, a pretty debutante of this season, also shared honors.

The hostess, with her two accomplished young lady guests and Mrs. William C. Read, stood in the reception room, which was massed in white chrysanthemums, and assisting her were Mrs. Eugene W. Britt, Mrs. Alexander B. Barrett, Mrs. W. D. Woodruff, Mrs. Charles Welborn, Mrs. C. B. Stanton, Mrs. Edward C. Boshell, Mrs. Erasmus Wilson, Mrs. W. F. Stanton, Mrs. Roland P. Bishop, Mrs. Burton E. Green, Mrs. Harry Kinney, Mrs. Norman D. Hall, Mrs. Owen Humphreys, Churchill, Mrs. Chauncey D. Clarke, Miss Carrie Wadsworth, Miss Gertrude Gooding, Miss Selby, Miss Byrne Kinney and Miss Margaret Clarke.

Stately yellow "mums" were used in true artistry in the hall, while pink dominated the decorative motif in the dining-room, where an elaborate collation was served during the hours of receiving. Daylight was excluded and a soft illumination came from innumerable candelabras shaded in delicate pink, while the tea table, covered in imported lace cloth, held a central mass of pink roses from which fell trailing bows of pink tulle.

An orchestra dispensed favorite airs from a bower of palms and fernery. Miss Norfleet a bride.

Standing in a bower of gorgeous white chrysanthemums before an improvised altar of the same fluffy white autumnal blossoms of asparagus plumosus, Miss Elizabeth Norfleet and Albert Rubin Shinn plighted their troth last night, at the home of the bride's mother, Mrs. Mary S. Norfleet, No. 1423 South Gramercy place, at 8:30 o'clock in the presence of over a hundred friends and relatives. Frances Norfleet and Isabel Eccles, two little maidens dainty in their white embroidered frocks bowed in delicate pink, stretched an aisle with pink satin streamers, down which the wedding party walked. Stunt and Clark Norfleet unhered, and Ward Wells Montgomery was best man.

The bride, looking unusually lovely in her gown of white satin and chamois lace, with veil of princess tulle, caught in the collar with a coronet of orange blossoms, and carrying a sheaf of bridal roses and lilies of the valley, was given in marriage by her uncle, Frank H. Hudson, a brother of Mrs. Norfleet. Mrs. Ward Wells Montgomery, as matron of honor, and

Mrs. Jane Catherwood, whose first salon of the season is to be held at the Regent tonight.

the Misses Helen Norfleet and Carmen Shinn, sisters, respectively, of the bride and groom, the bridesmaids, were all in soft pink frocks, wearing fetching empire gowns, low and full skirted and their arm bouquets were of Cecile Brunner roses and malden hair fronds. Mrs. Montgomery was in a creation of pink chamois, and her flowers were pink roses.

Rev. Campbell of the First Presbyterian Church officiated, and Mrs. Ada Marsh Chick played the "Lohengrin" and Mendelssohn wedding marches. William J. Chick singing, preceding the service, "When Love is Young." The decorations were unusually effective throughout the house, the music-room showing a profusion of yellow chrysanthemums and the dining-room being in pinks, with the conservatory in palms and yellow. The garden was strung with Japanese lanterns and a myriad of twinkling lights.

Mrs. Norfleet was attired in a white lace reception gown, and over 125 guests, the dining-room being massed in pink roses, accentuated by tulle and canopies.

Mrs. Shinn and her bride are leaving today for San Francisco to spend a fortnight, and are to be at home later in this city. Upon their return they will be at home to their friends to be the house guests for two weeks of the Ward Wells Montgomery, and many post-nuptial af-

airs are to be given for them. Later they will go to housekeeping on Leighton avenue.

At Luncheon. The daughter of John Muir, Mrs. Buel Punk, and her husband came in from the desert early in the week and were entertained at luncheon Tuesday at the Los Angeles Athletic Club by Pasco Henry Burke and the latter's fiancée, pretty Miss Marcella Margaret Mahan, whose engagement was announced exclusively in these columns yesterday.

California is devoted to the memory of Muir, whose reputation as explorer and nature lover brought him into renown throughout the world.

Bride to Receive. Mrs. Axel Simonsen will be at home informally tomorrow afternoon between the hours of 2 and 5, at the parental George P. Thresher home, No. 27 Westmoreland place.

Mrs. Simonsen is the fair bride, who was formerly Miss Helen Treacher, will also receive on the afternoon of Sunday at the same hours. They have been recently returned from their honeymoon trip, spent in Honolulu, San Francisco, Lake Tahoe and other resorts of the north, and the informal reception will be a circle of friends a delightful opportunity of calling to extend felicitations over their marriage.

For Tonight.

Mrs. Jane Catherwood's initial salon of the season will tonight attract a large number of musical and society friends, where the well-known matron has decided to hold her at-home this year. Frederick Clarke of Chicago is to sing, and Robert Alt, cellist, and Dr. M. Alter, violinist, with Archibald Sessions at the organ, are to give ensemble music. No cards have been issued.

To Aid Sufferers.

Los Angeles society is ever interested in some pet charity, in fact, the relief of this and that particular project furnishes the motive for any number of pleasant happenings on the social calendar and incidentally results in a world of well-doing. Just now the Lord Roberts chapter of the British Red Cross Society is making lavish preparations for the fancy dress dance and card party Saturday evening at the flower auditorium, No. 1720 South Flower street. The decorations are to suggest the Halloween season, and the party Saturday evening at the flower auditorium, No. 1720 South Flower street. The decorations are to suggest the Halloween season, and the party Saturday evening at the flower auditorium, No. 1720 South Flower street.

Halloweenish.

Mrs. William D. Stephens, wife of our Congressman, is being much entertained these days, prior to her departure for Washington, but no affair has been stamped by smarter appointments than the one given by Mrs. C. W. Hincheliff presided at her home, No. 1827 Crenshaw boulevard, yesterday, honoring this charming hostess. The occasion was suggested in the exquisite decorative motif from the central mound of fruit arranged with rare artistry in its pumpkins, and the individual favors of yellowish-pumpkin hue, accentuated by orange-toned tapers burning from black and white lanterns and black cats, witches and owls. Covers were marked for Mrs. Stephens, Mrs. Owen Humphreys Churchill, Mrs. M. C. Burnett, Miss Virginia M. C. Souden, Mrs. A. B. Taylor, Mrs. Roger Miller, Mrs. Frank Walsh and Mrs. Hugh Harrison, with the hostess. Auctioneering was a pleasant after-dinner diversion.

Wild-Enter.

Carl Wild and Miss Malania Uster of Switzerland were married Tuesday at the home of Rev. J. M. Schaefer. After a brief wedding trip Mr. and Mrs. Wild will be at home to their friends at No. 1413 South Hope street.

Have Many Friends Here.

Mr. and Mrs. Charles E. Maud, whose residence in Southern California are legion, have closed their Monterey home and after a short visit in San Francisco are planning to sail for the South Seas to spend the winter. Just now their intention is to make a trip around South America in the spring, and not return to California until early autumn. It will be a very busy time for Mr. Maud to be here by September for the golf tournament, as he was elected president of the new Del Monte Golf Club recently.

Leaving for Ohio.

Mrs. Laura Moore of No. 1246 West Forty-sixth street is leaving today for Ohio, where she will spend the winter with her daughter, Mrs. James Gregory.

May Remove to Salt Lake.

Much to the regret of their innumerable friends, Mr. and Mrs. Ben C. Rich are leaving Saturday for Salt Lake City, and it may be that they will make the Mormon City their permanent home. The Riches have lived for years at No. 320 Monterey road, and Rich fills an excellent place in musical and social circles.

UNIQUE CHURCH CANVASS.

Workers in Automobiles will Seek Every Member of First Christian Congregation Sunday Afternoon. Making the First Christian Church, Eleventh and Hope streets, the base of operations, 110 men in fifty-five automobiles will start out at 2 o'clock next Sunday afternoon, in pairs, to call upon the entire membership of the institution. The territory to be covered stretches from Glendale to Hermosa Beach. Committees have been at work a month preparing for the event.

The purpose of the canvass is threefold—to acquaint the members with each other, to secure more regular attendance upon services and to secure a weekly pledge from each member for current expenses.

Sunday will be a red-letter day in this congregation in many ways. The Bible school will hold a rally at 9:30 a. m. and the church will hold a social roll call in the morning and the 110 canvassers will stand before the congregation and be consecrated to the task in the afternoon. After the canvassers have had luncheon together at 1 p. m. at the church, work will begin, and by 5 p. m. it is expected, all will be done. A letter is being sent out to all members this week requesting that they be at home Sunday afternoon.

ROBBERS USE FISTS.

Attacked as he lay asleep in his room at No. 128 East First street early last night, Albert Luna was beaten by two men and then robbed of \$42 in bills. According to Mr. Luna, the bandits were not armed, but beat him on the head with their fists. He said one was a white man and the other a negro.

BIG SUCCESS COMING SOON.

"Nearly Married" Draws the Laughs at Burbank.

Large Musical Act Heads New Orpheum Bill.

Great Farrar Film Thrills Tally's Audiences.

"On Trial," one of the greatest dramatic successes of the past season, is to be presented at the Mason Opera-house during the week of November 21, with the original Chicago cast. The play is remarkable in that it is the first work of the young dramatist, Elmer L. Reisenstein. It is one of the new type of stage plays, which defies the accepted conventions of the dramatic world.

Burbank. "Nearly Married" is proving a premier laugh-producer this week at the Burbank, and the players at the popular theater are adding new laurels to their already large store of good comedy. Frances Ring, Edmund Lowe, Frank Darien, Grace Travers and the other members of the cast all appear to good advantage in their various parts.

Much of the credit for the snap and go of the productions goes to A. Burt Weaver, the new stage director, who is also seen in one of the principal parts in the play.

Orpheum.

The topplers of the new Orpheum bill which will open Monday afternoon are the sixteen Navarros girls, with a band, orchestra and choir, made up of sixteen soloists. The program which they are to offer will be a varied one. Other new acts will be James Kelson and Blanche Leighton in "Here and There in Vaudeville," Bertie Beaumont and Jack Arnold, with their musical comedy, "The Doctor's Note," Eugene Stinson, clever youthful artist of the violin, and Browne Dupont, another of the "perfect women" in the burlesque of "The Perfect Woman." The holdovers will be Erwin and Jane Connolly in "Sweethearts," "A Telephone Tangle," and "The Moral of the Story." The usual Pathe news pictures will round out the bill.

Pantages.

The headline act of the Pantages bill opening Monday will be the operetta, "Fong Choy," with Agnes Von Bracht, soprano, a favorite with the audience, as its star. The company in support of Miss Von Bracht is headed by Rodney W. Hillman. Scenically, the production is said to be very picturesque, being laid in a Chinese hilltop garden near Canton.

Another number on the bill is a musical mystery affair presented by George Lovette, assisted by Mme. Zenda and Mercedes Crane. Four other acts are scheduled, with two others in the episode of "Neal of the Navy" and a Pathe adventure film as the pictorial features.

Hippodrome.

"The Toyman" presented by a very capable cast is still proving a popular attraction at the Hippodrome. The play is a very good one, the special scenery and the quaint doll costumes add much to the success of the act. Another bright feature this week is the turn presented by Felling and Snyder, the two Los Angeles boys. Many entertaining acts are promised on next week's bill.

Rebelle.

There are so many angles of interest which contribute to its enjoyment that the current bill at the Republic theater is proving a particularly good one. The production of "Rebelle," the Oriental dancer who was held over, is more than duplicating her last week's success with the sensational dances of the Far East. Lester and Dolly, in their laughable "Tango Troubles," a take-off on the modern dance, are proving excellent contrast. The rest of the program is uniformly good, while a big personal triumph is being scored by Beatrice Mitchell in the title role of the "Salvation Nell" film.

The bill next week will be topped by the Stanleys, who have just completed a sensational tour of the Orpheum circuit, with their "Silhouette Fun in Shadowland," and by "After Dark," a photoplay based on the celebrated Brady medium.

Tally's Broadway.

The "Carmen" film, featuring Geraldine Farrar, has surprised the audience by its attractiveness, and is drawing long lines of ticket buyers to Tally's Broadway this week. The picture is a very good one, throughout weaves an enchanting spell over her audience, and is ever the center of interest. Her support leaves nothing to be desired.

There are many thrilling moments in the course of the big feature picture, and the settings are superb.

Trinity Auditorium.

Motion pictures of the war, taken by Edwin F. Weleie, with permission of the German Emperor, and among the most interesting ever secured at the battle front, will be shown at Trinity auditorium during the week of November 21. The pictures drew throngs when first presented at the Forty-fourth-street Theater in New York.

Cine's Auditorium.

Admirers of Peter B. Kyne will be able to enjoy a thrilling visualization of one of his mingling town stories, "The Big Chance," with Grant Keenan in the leading role next week at Cine's Auditorium. Probably no American actor ever has played so convincingly than Frank Keenan.

He bullies the bullies, laughs at guile in the hands of others, shoots from the hip and wears a plug hat and a "botted" shirt. The story is one which contains surprises at every turn, and a strong cast supports Mr. Keenan.

The Carter de Havens in "The College Orphan," and Sarah Bernhardt, are delightful audiences.

Cine's Broadway.

Lenore Ulrich, the whimsical little actress who created the part of Luana in "The Bird of Paradise,"

will be seen in "The Better Woman" beginning Monday at Cine's Broadway Theater. She is said to give a highly-artistic and convincing characterization of the woman whose spirit of self-sacrifice finally wins her a way out of the difficult situation and results in her final happiness.

The story concerns the love of a girl in a western mining town for a young civil engineer, who, after he marries her in a fit of spite, finds out she does not measure up to his ideal. Holbrook Blinn in "The Ivory Snuff Box" is making a decided hit this week.

Woolley.

Blanche Sweet in "The Secret Sin" has been attracting large audiences to the Woolley Theater. Miss Sweet plays the characters of twin sisters in this stirring play. How, as one sister, she can talk and even quarrel with the other is one of the thrilling scenes, and one of the mysteries of the production.

Next week pretty Hazel Dawn will appear in a picturization of Henry Arthur Jones's famous dramatic success, "The Masqueraders."

Quinn's Superba.

Clara Williams as the adventures in "The Man from Oregon" is proving one of the best drawing cards of the season at Quinn's Superba. Substituted at the eleventh hour for "Damaged Goods," which was banned by the board of censors, it has proved an adequate substitute. "The Man from Oregon" is a political story of many situations produced by the Thomas H. Ince company. Tomorrow night will be "Inevitable Night" at the Superba, and all the principals of "The Man from Oregon," the director and a large delegation from Inevitable will be on hand to see the film.

Garrick.

Through her charming acting in "The Pretty Sister of Jose," dainty Marguerite is adding to her already large array of admirers at the Garrick Theater. As Papita, the creature of a hundred moods and whims, she shows her versatility in an especial manner. The whole play breathes the romance of old Spain. This romantic spirit is added to by the singing of Juan Ferrita, a bass who was formerly with the Bevan Opera Company, who appears at every performance.

Next week the Garrick will have a double headline bill, featuring Charlie Chaplin in "Ambition," a four-part revue in his greatest comedy, and Marie Doro in "The Moral of the Story."

Palace of Pictures.

Local theater-goers have only four more days to see "The Blindness of Virtue" at the Palace of Pictures, as the sensational "topical" will be withdrawn on Friday night to make way for "The Challenge of Courage," which is said to be the strongest story ever written by Cyrus Townsend Brady. "The Blindness of Virtue," which features the dual stars, Edna May and Bryant Washburn, has caused a great deal of comment in Los Angeles.

"The Challenge of Courage," which is a Viennese "love-robbery" production, is laid largely in the West, and yet is far removed in idea from a typical western movie. Its theme deals with the elemental passions of men and women, and the plot is said to be a powerful one.

SETS BED AFIRE; JUMPS TO GRIEF.

SMOKER'S BACK CRACKED AND LUNG PUNCTURED; MAY NOT RECOVER.

Antonio Alvarez broke his back yesterday getting away from a fire he had set while lying in bed. In his haste he jumped out a second-story window, and landed on his back, fracturing his spine. He was taken to the Receiving Hospital to have his injuries treated, and was later transferred to the County Hospital. He may not recover.

TRIAL FOR SMUGGLING.

Woo Hoy, alias Wah Hee, charged with having in his possession sixty-five tin cans of opium, was tried yesterday before Judge Tripp. One of the defenses is that the stuff was not real opium at all, but that it was a harmless mixture of molasses and a tincture of the drug. This evidence will be contested by J. H. Watson, a government chemist at San Francisco, who made an analysis of the stuff.

TO PROTECT CASIL.

Desiring a decree of the Federal Court here to carry out an order of United States District Judge Van Fleet in San Francisco, directing James L. Boone, as receiver of the Commonwealth Casualty Insurance Company, an Arizona corporation, to take charge of the assets of the company, an action was filed against the company yesterday by Alina Waara. It is alleged that the corporation has a balance sheet of \$20,000 in cash in the jurisdiction, and the complainant desires that the receiver shall take charge of it.

TRIAL IN EAST.

Attorney Arthur C. Vaughan left last night for Kansas City, where he will defend in the United States District Court T. E. Wagner of this city, charged with using the mails to defraud in connection with the affairs of the Union Cattle and Mercantile company, a corporation for which he sold some stock in this city and vicinity. Wagner was indicted at Kansas City and arrested here later on, but gave bond in \$10,000. Some time ago President Bonebrake pleaded guilty to a similar charge and absolved Wagner from all responsibility.

Noted Daughter of the Confederacy.

Mrs. Thomas J. Latham, charming southern woman who has just been signally honored by the National Officers of the United Daughters of the Confederacy who elected her honorary president. Mrs. Latham will welcome the national officers upon their arrival in Los Angeles today.

National Officers.

CONFEDERACY DAUGHTERS TO BE OUR GUESTS TODAY.

ONE hundred and seventy-five national officers and delegates of the United Daughters of the Confederacy will arrive here today and tomorrow after attending their convention in San Francisco. They will find a long list of alluring entertainments planned by the seven local chapters in their honor.

Headquarters are to be established at the Alexandria Hotel. First to welcome the distinguished visitors will be Mrs. Thomas J. Latham, who was recently honored by being chosen honorary president of the national organization. She was on the Program Committee for the convention and also served on the Memorial Committee, and her choice for the honor was a popular one.

The ladies will spend three or four days in this city.

Mrs. J. Henry Stewart, chairman of the Program Committee, with representative ladies from each chapter, will meet and escort them to San Gabriel Hotel. These luncheon will be served at the Grapevine Inn, the ladies of the Southern Chapter of Alabama, Mrs. Harry Graves (chairman) acting as hostesses. Mrs. Grantland S. Lane, Vice-President of the California division, will preside and introduce Mrs. Daisy McL. Stevens, retiring President-General, and Mrs. Frank G. Odenheimer, newly-elected President-General. Later all will visit the San Gabriel Mission and the "Mission Play."

Tomorrow evening the chapter has invited the ladies and the members of chapters to a grand ball at the pavilion, admission by donation. Mrs. Abbott Kinney and Mrs. J. H. Hollingsworth, Mrs. J. T. Fitzgerald, and Mrs. J. H. Fitzgerald, will be on the program. Saturday evening at 8 o'clock the chapter will receive the ladies of the local chapters at the chapter hall, 1000 Broadway. After the meeting, the ladies will be entertained by the chapter at the chapter hall, 1000 Broadway. Saturday evening at 8 o'clock the chapter will receive the ladies of the local chapters at the chapter hall, 1000 Broadway. After the meeting, the ladies will be entertained by the chapter at the chapter hall, 1000 Broadway.

It is with pleasure that I state that the night brought you some months of most trying conditions, including a term. It has given me no trouble and ever made for the money. It is certain.

JOHN L. MASON OPERA HOUSE—TONIGHT.

Big Bargain Matinee Saturday; Special Program Sunday.

Change of Program Nightly.

THE KILTIES 36—Artists.

Singers, Pipers, Dancers, Bandmen, Soloists.

More Expressions From Men You Know Regarding the Eight Cylinder Cadillac

THOMAS W. PHILLIPS.

It is with pleasure that I state that we have driven the Cadillac
eight, bought of you some months ago, some 6000 miles under
trying conditions, including a trip to San Francisco, and re-
turn. It has given me no trouble and in my opinion is the best car
made for the money. It certainly has a wonderful engine.

JOHN LANG.

The eight-cylinder Cadillac I purchased last spring has re-
ceived very satisfactory service on all occasions. I have driven the
car 6000 miles without finding it necessary to run it into any shop
for repairs. Neither have I required any new tires, although I
made trips to San Diego, Big Bear Lake and many other hard
roads. I have not hesitated to recommend the eight-cylinder
Cadillac to my friends and feel that the performance of this car
warrants such action.

WILLIS C. ANDERSON.

I am one of the many enthusiastic users of Cadillac 8-cylinder
automobiles. I take this means of informing you that I consider
the Cadillac eight the most efficient (from all standpoints) of
any automobile on the market today. I speak as a user, having
owned and driven at 1915 car about 7000 miles over all conditions
without one particle of trouble. I believe both the factory
and yourselves should know what we users think of the Cadillac
eight. I think they best them all and I have owned several other
kinds of high class cars.

GEO. GILES.

My Type 51, 1915 Cadillac has proved itself fully up to my
expectations. After driving it 9000 miles I am fully convinced
that the man who expects to get a better automobile at any price
will be greatly disappointed. This is the ninth car I have owned
and driven, but it is the first real automobile in every sense of
the word. I want to take this opportunity of expressing my ap-
preciation of the courteous and efficient treatment rendered me by
your service department; this together with the best automobile
in the world, is a combination impossible to beat.

There are over five hundred owners of eight-cylinder
Cadillac cars in Southern California. We will gladly refer
any prospective buyer to any or all of our owners, with the
perfect confidence that they will all express the sentiment
expressed in the above. We will furnish names and address
of any number of owners at any time.

HUNDREDS ARE TURNED AWAY.

Movie Queens Rule Over the
Great Auto Show.

Charming Screen Actresses
Draw Homage.

Film Companies Represented
by Popular Stars.

BY AL G. WADDELL.

Queens of Filmdom reigned over
the great Broadway Automobile and
Flower Show last night. It was the
biggest sight of the wonderful show.
Not only were the queens of the mo-
tion-picture industry present, but
there were popular character women,
lesser lights and attractive extra girls.
The men of the photography profes-
sion were also present en masse.
Leading men, directors and camera
men showed up to view the exhibits
and pay homage to the queens of the
show.

All attendance records were shat-
tered yesterday and last night. At 9
o'clock the sale of tickets was dis-
continued. The doors were closed, and
it is estimated that 500 persons were
turned away after the "sold out" sign
was hung on the front entrance.

GRAND TOTAL.

There were approximately 12,000
paid admissions yesterday. This
brings the total attendance at Los
Angeles' greatest show well above the
50,000 mark for the first half—and
there is more to come.

Society night and Van Nuys night
will be celebrated this evening. Op-
portunity will be afforded for the ex-
hibitors to do their "open-face"
make-up and play the exhibitor's
role as it is played in the large east-
ern cities. In the past the Los An-
geles shows have been "bush league"
affairs, as compared with the show-
ings in the eastern cities, but the
Broadway Automobile and Flower
Show, the greatest show ever held
west of Chicago, is such magnitude
that it ranks with the greatest shows
on the national automobile show cir-
cuit.

SOCIETY NIGHT.

Society night is to bring out the
members of the 480 of Los Angeles,
in addition to several thousand others
who will do the "moonlight."
The show will be a "bush league"
show, as compared with the show-
ings in the eastern cities, but the
Broadway Automobile and Flower
Show, the greatest show ever held
west of Chicago, is such magnitude
that it ranks with the greatest shows
on the national automobile show cir-
cuit.

By 8 o'clock, the four floors were so
crowded that a steady stream of hu-
manity moved slowly among the cars
and down the wide aisles. On Broad-
way, a line extended down the side-
walk to Third street and up to Sec-
ond. Patrons of the show were lined
up on Hill street for a half block
in either direction and many persons
parked their cars more than ten
blocks away from the show.

KATHLYN CAPTURES

As Miss Kathryn Williams, Packard
queen, sat in the beautiful "Twin-Six,"
she was the point of attack for hun-
dreds of friends who wished to speak
to her and thousands of eyes, as the
great crowds swarmed into the build-
ing.

Directly across from Miss Williams,
Miss Myrtle Gonzalez, the White
queen, ruled over a throng of admirers
and was surrounded until after the
show closed.

Auburn-haired Beale Epton, the
Selig star, radiated sunshine and
smiles from her throne in the tonneau
of a chrysanthemum-laden Cadillac
eight. As a feature she distributed
2000 beautiful bouquets with the com-
pliments of Don Lee and with each
flower she passed out one of her win-
ning smiles. As a result the Cadillac
booth was the center of an immense
throne. On each chrysanthemum was
a ribbon on which were the words
"Cadillac Eight." These were much
in evidence throughout the show.

On the second floor Miss Camille
Aster held the spotlight at the At-
tractive Stutz exhibit. Myrtle Stead-
man and Grace Cunard were capti-
vating in the center of throngs, and Miss
Lulu Glan spent a short time wedding
her way around among the exhibits.

FROM THE NORTH.

The beautiful Miss Edna Mason,
(Continued on Eighth Page.)

OREGON KID THE WINNER.

BY A. P. NIGHT WIRE.
SAN FRANCISCO, Oct. 27.—
Oregon Kid II, owned by Milton
Smith of Rainier, Or., won to-
day the Pacific Coast motor boat
championship by taking the
second heat of the Panama-Pa-
cific Exposition races in San
Francisco Bay. The race was
over a twenty-mile course. The
Oregon Kid's time was 21m.
and 38s.

The Oregon Wolf IV, owned
by John Wolf, of Portland, took
second place. Time: 22m. and
41s. Third place went to Fight-
ing Bob of Sacramento, owned
by the Sacramento Boat Club.

Penultimate.

MIDWICK FOURS PLAY MATCH.

REDS GIVE WHITE REGULAR
BEATING.

Carlton Burke Shows up Bril-
liantly at Back, Making Some
Clever Shots—Wind-up to be Sat-
urday with Golf and Tennis on
the Side.

The Red team was victorious over
the Whites in Midwick polo yesterday,
when they played the penultimate
match of this series.

The score was: Reds, 34, and the
Whites, 2.

As a spectacular game polo is hard
to beat, they had had seventy auto-
mobile loads to watch the exciting
game on Saturday, but only a small
audience turned out to do the occasion
honor yesterday. That did not
dampen the enthusiasm of the play-
ers, however, and Carlton Burke
in particular treated us to some
brilliant executions as back for his
team. Maibay played 1; Hal Cook, 2;
and Reggie Weiss 3 for the Reds. The
White team was composed of Macey
and Ford, who played 1 alternately.
H. Weiss, who played 3; Robert Neu-
stadt, who played 2; and Drury of Riv-
erside, who played back.

Next Saturday will see a big crowd
to watch the final match of the series,
the wind-up before the official pro-
gramme begins in January at Cow-
dances to conclude in the evening.

Midwick has large aspirations, fully
justified, for the coming series of con-
tests in the spring, against San Fran-
cisco, Canadian, Coronado and River-
side teams.

HIGHWAY SIX CAR DRAWS ADMIRATION.

OAKLAND SPEEDSTER ATTRACTS
ATTENTION IN GREAT
AUTO SHOW.

Hawley, King & Co. is showing a
chassis of a National highway six as
a part of its display. Visitors are
enabled by viewing the chassis to un-
derstand more thoroughly the me-
chanical construction of this model.
The highway six touring car also is
an object of admiration to many. The
Oakland speedster, which is displayed
by the same company, is declared by
many to be the lightest car on the
floor.

Manager Reave Garzmann endeav-
ored to procure a twelve-cylinder Na-
tional car for the show, but the fac-
tory was unable to supply him. The
car is expected to arrive in Los An-
geles within a few weeks.

SUMMER PLAYER IS SUSPENDED.

LOREN SOLON DENIES THE
CHARGE MADE AGAINST
HIM.

MINNEAPOLIS (Minn.), Oct. 27.—
Loren Solon, recently deposed as cap-
tain of the University of Minnesota
football squad, because he was alleged
to have played professional baseball
last summer, was suspended from the
university today on the same charge.
Solon denies the charge.

TRY TO SCALP PREXY BAUM.

Maier and Leavitt Against
Him, Rumor.

Endeavoring to Get Bees on
Their Side.

Quarrels Reason for 'All
Animosity.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
SAN FRANCISCO, Oct. 27.—Re-
ports from the Southland indicat-
ing that certain of the Coast League man-
agers will work at the annual meet-
ing of the Pacific Coast League to de-
pose Allan T. Baum as president of
the league have reached San Fran-
cisco.

Ed Maier of the Vernon club is
named as one of the men against
Baum's continuing in office, while
Frank Leavitt of the Oakland Tig-
ers is named as another. The story
goes that the malcontents have ap-
proached officials of the Salt Lake
team with a view toward securing
their support in such a move.

NO WORRY.

So far as President Baum's imme-
diate future is concerned, to say the
least, he need have no worry, for
when he was elected to the presi-
dency it was for a five-year term of
office and that term does not expire
until the close of 1916. It is a con-
tract that could not be canceled even
assuming a majority of the league
directors so desire to do. And the
majority is not expected to be in favor
of continuing Baum in office, since
his administration has been marked
with success.

Ed Maier's animosity to the pres-
ent regime extends back to the quar-
rel the Vernon owner had with Cal
Ewing as regards Orville Overall and
his right to be signed to the team.
Maier has in mind that it was largely
through the efforts of Ewing Baum
was made president and he would
break his vengeance in such fashion.

THE RIOT.

President Leavitt of the Oakland
team has been at odds with the league
president since the "riot" in Oakland,
in which a decision by Finney was
objected to by the fans of that city.
Even before that affair President
Leavitt had shown his unfriendliness
to Finney and after that the Oak-
lander demanded of Baum that Finney
be forced to resign. The league ex-
ecutive stood by his man, and in
consequence has not been on speaking
terms with Leavitt since that in-
cident.

The Los Angeles report intimates
that T. J. Darmody of the Los An-
geles club is lined up with the two
mentioned, but no credence is placed
in that report in this city. Berry and
McCrede are solidly behind Baum and
it is thought that Salt Lake and Los
Angeles make the same viewpoint.

MATHEWSON GUILTY OF GRAVE OFFENSE.

KEEPS SEVERAL COAL TRUCKS
FROM UNLOADING THEIR
BURDENS.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
NEW YORK, Oct. 27.—Christoph-
er Mathewson, take it from the sporting
writer, photographer, playwright, au-
thor, actor, golfer, pitcher and mark-
smen, today took up a new pursuit—
court defendant.

He appeared in Yorkville court be-
fore Magistrate Barlow to face a
charge of blocking traffic by allowing
his automobile to remain in front of
the Imperial Hotel, where coal trucks
were waiting to unload.

"I'm afraid I'm guilty," the versa-
tile ball player replied, "but I did not
mean to delay traffic."

The court then found him guilty
and suspended sentence.

JESS WILLARD IS ON HIS WAY HERE.

Jess Willard started yesterday from
New Orleans for Los Angeles, accord-
ing to word received here. Accom-
panied by Trainer Monahan, he is
coming home in get in shape for his
bout with Frank Moran, who recently
knocked out Jim Coffey.

BANG WENT THE CHAMPS.

BY A. P. NIGHT WIRE.
SAN DIEGO, Oct. 27.—The
Barker-Gilmore team of San
Diego defeated the White Autos
of Cleveland, touring amateur
champions of the United States,
here today, in a sensational
game, by the score of 5 to 4.
Minnis was knocked out of the
box in the second inning, when
the home team found him for
six hits and four runs. Atkins
was caught at the plate in the
eighth inning when he attempt-
ed to stretch a triple into a
home run, after scoring two
runners. Score:
Barker-Gilmore, 5; hits, 13;
errors, 2.
White Autos, 4; hits, 9; er-
rors, 0.
Batteries: Killen and Pike;
Minnis, Crowley and Fohle.

On Gridiron.

FOOTHILLERS TO MEET COLLEGE.

GAME PROMISES TO BE EVENLY
MATCHED.

Line-up of Hilltop College has been
greatly changed and strength-
ened—Collegians Think Victory in
Sight for Them—Hollywood is Ex-
pecting an Easy Time.

The Los Angeles Junior College will
meet the Hollywood High School foot-
ball team in battle royal tomorrow
afternoon on the football field. Ac-
cording to the college players, the
chances for victory are about equal,
if past records may be used for a ba-
sis, since after one week's practice the
Junior Collegers pitted themselves
against the L. A. High School team,
which had been in training for three
weeks, held the more experienced
men to a modestly low score, and
were enabled to register a single tally
themselves. Last Friday the L. A. team
walloped the Hollywood men to the
tune of 9-0. The futility of the team
on easy bacon, but they are
doomed to quite a surprise if not a
drubbing.

Several changes have been made in
the Junior College line-up. Park, the
Illinois star end, will hold down the
responsible position of quarter-back.
Peet, who until lately has played in
the back field, has been placed on the
line to strengthen that heretofore
weak point of the team. Burral, the
speedy end, has jumped to full and
is displaying wonderful bucking abili-
ties. Many players are out each eve-
ning, and Coach Noble expects to use
each man in the game tomorrow. San-
ger, a light but fast man, is trying out
for the back field, and will probably
play during half the game.

The Hollywood team is on record as
a fighting bunch, and may always be
counted upon to hold in a pinch. This
spirit is what held L. A. to such a
low score.

ROBERT MURRAY NOW EASTERNER.

LEFT-HANDED PALO ALTO MAN
IS NOW EMPLOYED IN
NEW YORK.

BY A. P. NIGHT WIRE.
NEW YORK, Oct. 27.—Robert
Murray, the young left-hand-
ed tennis player of Palo Alto, Cal.,
has joined the ranks of eastern tennis
players. Murray, who was graduated
from Leland Stanford University, is
now employed in Bayonne, N. J., and
will play tennis as a member of the
West Side Tennis Club at Forest Hills,
L. I. He ranked fourth in the national
list of players last year.

MANY ASPIRANTS ARE ELIMINATED.

Thirty-one of the forty entrants in
the Los Angeles High School tennis
tournament have been eliminated.
Those still surviving the play are Cox,
Samuelson, Coleman, Tripp, R. Hull,
Wignone, M. Hull, Finley and Kirk-
patrick.

NATIONAL AND FEDS TO JOIN.

Weeghman Semi-officially
Confirms Rumor.

Giants to be Sold to Harry
Sinclair.

Fleider Jones to be Head
of Cardinals.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
CHICAGO, Oct. 27.—An agreement
between the National and Federal
leagues was semi-officially confirmed
tonight by President Weeghman of the
Chicago Federals. A tentative agree-
ment with the American League is be-
ing blocked by Ban Johnson.

According to the new plans, Harry
Sinclair, owner of the Newark Fed-
erates will buy outright the New York
Giants and the Newark Park will be
utilized for Sunday baseball and dur-
ing the week will probably be occu-
pied by the International League team.

BUY CUBS.

Charles H. Weeghman and his as-
sociates will buy the Cubs and will
move the team to the North Side and
consolidate them with the Chicago
Feds.

Phil D. C. Ball and Otto Stifel,
owners of the St. Louis Feds, will
purchase the St. Louis Cardinals and
Fleider Jones will become the man-
ager.

Edward W. Gwinn and Barney
Dreyfus, respectively owners of the
Pittsburgh Feds and Nationals, will
come to an agreement. One or the
other will buy outright or they will
become business associates.

TO TERMS.

The Wards and Ebberets of Brooklyn
will also come to terms and there is
talk that the International League
will utilize the Ward park and the
Trolley Dodgers will continue to oc-
cupy their old home.

What will become of Kansas City,
Baltimore and Buffalo has not been
discussed, but it is believed the Pack-
ers will buy outright or they will
become business associates.
City Blues in the American Associa-
tion; Buffalo and Baltimore will be-
come members of the International
League; the former consolidating with
the Bisons, while Baltimore will get a
franchise, as it was at one time the
best paying town in the International
League until the Feds broke in.

BITTER.

President Weeghman and Vice-
president Walker of the local Feds re-
turned from the East this morning
rather angry at Johnson for his com-
ment on the death of Robert B.
Ward. The Cleveland club of the
American League, which is in the
hands of a syndicate of bankers, is for
sale.

POINT BLANK.

"The death of Mr. Ward, while a
sad blow to our organization, will not
affect the Tiptops in any way, as
George Ward will continue to con-
duct the affairs of the club."
"I cannot deny the fact that there
have been numerous meetings in New
York seeking a settlement of the
baseball war. However, I cannot ad-
vance any information at present, but
hope to have plenty of news soon."

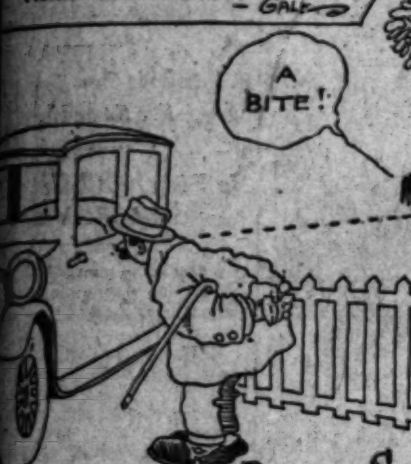

Mr. Weeghman was asked point
blank whether the proposed deal
would give him the Cubs and move
them to the North Side, to which he
said he could not answer such a
question at present. It is a well-
known fact that the new park will not
be abandoned, no matter what settle-
ment is made if peace is declared.
hence, the wise ones offer the infor-
mation that the Cubs and Whales
will be consolidated.

One local official said today that
had it not been for the arrogant
stand of Ban Johnson, president of
the American League, due to the fact
that the St. Louis, Chicago and Bos-
ton Americans trimmed the National
League team four out of five games
in all three cities, peace would have
been announced several days ago.

Coach Guy Nickalls of the cham-
pion Yale varsity crew has five of last
season's university crew and the
whole of last season's second and
freshmen eight to form this season's
varsity eight from.

INSERTED BALL PARK IS GLOOMY PLACE IN WINTER.

Early Elliott's Appointment as Manager of the Oaks Next Season Puts a Crimp in the Stove or Radiator League Stories—Dillon to be Fired Every Day—Feds Dying.

BY HARRY A. WILLIAMS.

WEDDED in at the ball park, the regular hour yesterday. Did so through force of habit. It can be seen what a thing habit may become. The habit of going to the ball every day wraps its cold and enigmatic about a man he finds difficult to reform and become a citizen. It is a good deal the way with eating and working. It is of us working, not to enjoy it or feel that we are getting real benefit from it, but we lack the moral stamina to resist the temptation to work.

Back to the ball park. All the old yard looks like a season. Yet of all the things that have come down upon its two and a half acres, probably not half a dozen have been in the desolate blackness of the off season. Contrast is depressing, and the ground-keeper under it. No shouting, no victory, or gains of defeat, or weeping, and no cussing. Just acres of green and brown, and a few scattered trees. The grandstand stares at the emptiness, and the fence seems to leer at the grotesque in their own. You can hear the echo of the footfall in the deserted enclosure. We don't see the foot bounce back, but it would be a relief if it did. The lady on the fence would wink, or take out her pin and take a dab or two. Instead, she stares at the immovable stare at the sky with a plug hat, a cane and a bag over on the other fence. She will maintain a dignified silence. She refuses to speak to the lady to whom he has introduced. Probably he has tried to try and bump her. Those pictures on the wall must get to hating each other.

Rowdy's Job.

When in Los Angeles, President Leavitt of the Oaks stated definitely that Elliott would be given another chance, and while there were numerous rumors of a change in the meantime, he evidently was handing out the straight goods.

It will be remembered that the appointment of Elliott created almost as much of a sensation as the appointment of Rowland to manage the White Sox.

I asked Leavitt how he came to appoint Rowdy.

"Rather a surprise, wasn't it?" said the Oakland owner. "In the first place his work had convinced me that he is one of the same old fellows that ever looked through a bribe. Also, he is extremely aggressive. Then, another thing that made a hit with me was his contention when approached with the offer that Jack Nease was the man entitled to the place. We figured, however, that Nease should be made manager, might not stay in the same regularity, and that this might affect his playing. We were grooming Nease for the majors, and did not want to do anything that would hurt his work. The responsibilities of a managerial position sometimes have a bad effect on a man's work in the field."

"Elliott still is on probation. I feel that he has more ability than has shown, even though he has done better work with the team than any other manager since the days of Bud Sharpe. He has latent ability which I feel can be developed, and because of this I intend to give him another chance."

NEW ENGER TWELVE CAR IS NOW BEING EXHIBITED.

VISITORS at the Broadway Automobile and Flower Show yesterday afternoon were given the first opportunity to inspect the new Enger twelve. The car is being exhibited by the Irving Motor Car Company, Southern California distributors for the line. It was three days late getting into the show because of a delay at Chicago. The car is direct from the factory at Cincinnati. To get it Mr. Irving

brought all his personal influence to bear, even going to Cincinnati to tell the factory officials of the importance of the Broadway Automobile and Flower Show, and of the necessity that they exhibit a new car there.

The "Enger" Twelve motor is of the V-shaped type, with instruments between the cylinders. It is of overhead valve construction. Mr. Irving explains that the cars which will be offered for sale will have these valves inclosed and with different arrangement of some other minor features.

Clair, owned by Ragan and Woodworth of Utica, Neb., 12 to 8. The finals in both the Aberdeen cup stakes and the Beatrice derby will be run off tomorrow.

FAMOUS HORSES UP AT AUCTION.

[BY A. P. NIGHT WIRE.]

BEATRICE (Neb.) Oct. 27.—Mr. Cannon, owned by W. B. Black of Grand Island, present holder of the Aberdeen cup, stands high for winning the cup again this year in the Western States coming meet. He won two races this afternoon, the first and second heats of the semifinals, and made high score, outpointing Lucille

[BY A. P. NIGHT WIRE.]

LEXINGTON (Ky.) Oct. 27.—Elmendorf, the 5000-acre estate of the late James H. Haggin, will pass out of existence as a breeding establishment tomorrow, when the stallions Ballot, Sain and Hessian, with sixty-eight brood mares and thirty-one yearlings, will go under the hammer.

MR. CANNON MAY WIN CUP AGAIN.

GRAND ISLAND HORSE HAS WON TWO RACES ALREADY THIS YEAR.

SLEUTHS AND GREAT SECRETS

Detectives and Automobile Cause Excitement.

Polytechnic has Secret Practice Somewhere.

No Visitors Allowed at Manual Work-out.

A fleet of automobiles and a band of self-government officers were prominently in the foreground of the Polytechnic football team's practice yesterday.

In preparation for the game between Poly and Manual from Washington Park Coach Haskett's chances pulled off some sort of a practice. Haskett mysteriously treated all requests for a glimpse of the team, but a group of football men, seen to pull away from the Washington-street institution shortly after 1 o'clock and steam off in the direction of Watts.

The squad of school sleuths is to the Manual part of the practice. Armed with various weapons, succeeded in keeping anyone within sight of the football field, a series of wonderful new formations were practiced.

"We have only one man, Coach Haskett, who has had experience in American ball," says Coach Haskett. "But thus far in the season we have been meeting teams who were up against Polytechnic and we have more confidence. Since we have Polytechnic has had no more experience than have we. I believe the score will not be close and it will be in our favor."

Haskett has shifted things considerably in his line-up. He has moved from half to full back and is expected to star. Facker and Davis will be used as halves. Haskett claims that he has no open football, but the grunting, bucking, variety, hair and nerve scrimmage between first and second teams on Saturday. The men were told that they depended on the game and were like wild cats. As a result, Haskett and Bridges, former second team, will be seen in the Poly game.

The teams will line-up as follows:

FRESHIE RUGGERS DEFEAT PALO ALTO

SCORE FOUR TRIES IN THE FOUR MINUTES OF PLAY.

(BY A. P. KNOTT) STANFORD UNIVERSITY, Oct. 27.—Scoring four tries in the first four minutes of play, the Stanford men's rugby team defeated the Palo Alto High School team 20 to 0 in a game played at the Stanford stadium.

MATINEE FETES AT AUTO SALON.

Better attend the great Broadway Automobile and Flower Show this afternoon.

This applies particularly to women with children, or women who are attending the great exhibit unattended by an escort.

The show management has announced last night that special attention would be paid to women and children attending the matinee displays for the first of the week. Everything will be done, and they will be well taken care of.

The exhibitors are holding the managers of the show in the way possible. During the afternoon special matinee demonstrations will be on hand. They will answer all questions and will endeavor to explain the workings of the automobiles to the tiny tots as well as to their elders.

SLOW PACE MORE POPULAR NOW.

"I believe this new speed is more to be sought in connection with the purchase of a car than a speed of fifty or seventy miles an hour," said F. W. Haines to a gathering of Regal dealers recently.

"The real value of the ability to travel at a speed less than a walking pace is readily appreciated in the congested traffic of the large cities, when the driver of the car ahead gives the high sign to slow up. To do this without having the motor balk, and without the necessity of a change of gears is a blessing at last realized with multi-cylinder motors."

ROWDY SIGNS AS MANAGER.

(BY HENRY WHELAN) SAN FRANCISCO, Oct. 27.—Looking at rest all rumors that a new skipper might be selected for the Oakland baseball club, Harold "Rowdy" Elliott signed a contract today calling for his services as manager of the team for 1916.

Elliott's first official move was to announce the acquisition of a new pitcher, in the person of Vernon Manser. Manser hails from the Colonial League, that was formerly the Eastern Association, and has a good record.

The Oaks have also signed Orel Hix, the big southpaw who pitched for the South Texas Tigers in the amateur season. Hix will be tried out next spring.

KELLY BREAKS BONE IN LEG.

Greatest Trojan Athlete is Out of Football.

Leo Livernash Cracks His at Berkeley.

Loss of Players to Slow up U.S.C. Varsity.

BY C. H. BOWERS, M.D.
Fred Kelly has a spiral fracture of the fibula. It is one and one-half inches in length at the junction of the lower and middle one-third. There is a slight displacement.

Fred Kelly, the greatest of all U.S.C. athletes, has a broken leg and will not compete for his university on the athletic field again.

Leo Livernash, the sturdy and hard-tackling Trojan end, has also a broken leg and is out of football for the season.

Kelly's leg was broken a week ago Wednesday in the secret practice with Occidental. It snapped when Battle-ship Shipke tackled him in the first minute of practice. Livernash broke his leg in the first five minutes of the California-U.S.C. game.

EFFECT.
The cases are very remarkable. Kelly walked on his broken leg until yesterday. Livernash didn't know his leg was injured until he tried to go back into the California game and could not walk.

Just what effect the loss of these men will have on the U.S.C. varsity is not known. Kelly is credited with being the fastest man in a football suit in the country. Much of the Trojan offense was built around him. Livernash was looked upon as James's successor and the hardest tackler on Harvard Field. However, Glass defeated California without them last Saturday. He seems to have one of those real teams which depends on eleven men and goes on no matter what star is lost.

GRIT.
When it comes to pure, unadulterated grit, Kelly takes the cake. His leg was broken Wednesday afternoon. He went in and dressed and limped around the field. He reported for his light practice Friday afternoon, still walking on the broken leg. He ran through signals with the team at Berkeley, however. By this time he was limping so bad and his leg was hurting so much that he even knew it was useless to try to play. Then he came south and went to work at his job. All the time his leg was getting worse until the pain was almost unbearable. The weight was plying the team further apart. Finally Howard turned on his going to Dr. Chester E. Bowers. He did and his leg was broken. Kelly feared the worse; that is why he staid away.

This is not the first time Kelly has been such a grit. He threw a shoe in a hurdle race and ran in his bare feet on the burning cinders. It was all out and bleeding when he finished.

LEO'S NERVE.
Livernash broke his leg in the California game in the first five minutes of play and went another ten on his nerve. Coach Glass and Howard on the side lines noted the reliable Leo was not getting down on points, noticed that on forward passes he was not near the ball, noticed that the man with the ball was running around him and wondered what was the matter. Glass called him out of the game and he came to the sidelines almost crying because he had not made good. The Trojan coach decided to give him another chance at the beginning of the second half. Leo tried to get up and found that he could not use his leg.

This matter of two men playing on broken legs is one of the most remarkable things in southern football. Kelly is a jagged break that just looks of going clear across. It is very much like Sid Foster's. Leo's is a crack that runs up the bone. The only other case anything like this is that of Bruce Dill, who played full for Occidental several years ago. He walked around three days after his Oregon game in which his leg was broken before he found it out.

Play for round table.

Made recently on the tables of the Los Angeles Athletic Club. Try to make 'em yourself.

What happened to Fred Kelly. This is the X-ray photograph of the champion hurdler's leg, showing the fracture sustained in practice last week. It is believed that Kelly is out of football for the season and some fear that he may never recover his hurdle form again.

AMONG THOSE PRESENT AT AUTO SHOW LAST NIGHT.

STANTON DETERMINED TO WIPE OUT FUMBLING SIN.

[SPECIAL CORRESPONDENCE.]

C LAREMONT, Oct. 27.—So far this week, Coach Stanton has not given the Pomona Huns the shake-up that was predicted as a result of the Arizona game Saturday. Tuesday night, however, he gave the men a long talk in the training quarters, pointing out all the mistakes of the game, and telling each man just where he failed to do his duty. He will give every man a chance in the game next Saturday, and after that game there will be a few men sent back to the scrubs if they don't show up in good style.

The main trouble with the Huns this year is that in scrimmaging the scrubs, they are never tackled hard enough to lose the ball, but the moment they run up against an outside team which plays a hard game, they invariably fumble the ball because they are not used to such hard tackling. Fumbles in practice are infrequent, but have been the Huns' greatest weakness in regular games.

Coach Stanton goes on the principle that if a man holds the ball correctly, the harder he is tackled, the more firmly should he have the ball held under his arm. If a back once gets

his hands on the ball, there is no excuse for his fumbling in the eyes of the coach.

From now on till the end of the season, the Huns will be given more games with outside opponents. Every Wednesday night, Coach Evans will bring his high school team up from Pomona to scrimmage the varsity. Besides, it is expected that practice games with Chaffee High School will be arranged for the future. The freshmen also will be used to scrimmage the varsity every night till the time of the big games. With enough hard practice games arranged, the Huns should soon get over their fault of fumbling the ball.

Beginning with the game next Saturday, the Huns will have an important game to play every Saturday until the Occidental game. November 6, the Huns are scheduled to take on the Sherman Indians at Riverside. The redmen have been improving constantly, and will give the Huns all they want to take care of. The Saturday following that, Pomona and Whittier meet in one of the most important games of the season. On November 20 will take place what the Huns consider the most important contest of the year, the Occidental game.

A Car That Sells Itself

The New KisselKar 32-Four

\$1050

One look at this new Five-Passenger Touring Model, and you're definitely "sold" on it. That's been its experience all this week at the Broadway Automobile and Flower Show at the Boston Store Building, where this new 32-Four and all the other Kissel models are on view in Space 26, 2nd floor. Equal in beauty, comfort, convenience to the other standard Kissel models—less only in size and price! No sacrifice of quality and lots of excess value—a Kissel with all that the name implies, at \$1050!

KISSELKAR

"Every Inch a Car"

The complete KisselKar line is ready for your inspection at the Show—including the 32-Four model mentioned above, a Four-Passenger Roadster at \$1150, and a Roadster Coupe at \$1450; the 26-Four, from the Five-Passenger 2-Door Touring at \$1250 to the Seven-Passenger Sedan at \$1700; the 42-Sixes, from the Five-Passenger 4-Door Touring at \$1450 to the Seven-Passenger Sedan at \$2100. Especially featured are the various models of the famous All-Year Car, all chassis, Sedan and Coupe. See also the line of Kissel Trucks. All prices, F.O.B. Factory.

The Show continues until October 30. Drop in at Space 26, Second Floor; we'll be glad to see you.

1916 OLDSMOBILE

The Quality Light Car

There is no change in the running of your Oldsmobile going up the steepest grades. Gasoline is supplied to the carburetor unfailingly at all times.

The Stewart Vacuum gasoline system in Oldsmobile 48 insures even running under all conditions. It draws gasoline from the rear tank to a small tank under the hood, where the gasoline falls in an even, positive flow to the carburetor. No gasoline is forced wastefully through the carburetor to cause an over-rich mixture, sluggishness and carbonization.

\$1095 f.o.b. Lansing, Mich. We will be pleased to demonstrate.

Oldsmobile

The House of Oldsmobile has produced many of the great men in the automobile business, and they all attribute much of their success to the early lessons learned in the Oldsmobile School of Motor Car Making.

In One Car, the Use and Comfort of Two

This is the same ideal car that has attracted enthusiastic admirers to our booth at the Automobile and Flower Show every day and evening.

Its companion piece—the elegant 5 passenger all-year touring car shown at the bottom of this ad., has created a large group of new Hupmobile enthusiasts.

Last year the Hup Motor Car Company popularized the idea of two-cars-in-one with the removable winter top, built by the factory producing the car. And many families which own but one car were given the use and comforts of costly closed cars.

The same advantages are available with the 1916 Hupmobile, at less cost and with tops of improved design and construction.

The new detachable top is made of metal, close-fitting and in perfect harmony with the beautiful lines of the car.

In winter it provides all the protection of the costliest limousine, and a great deal of its luxury.

It can be used the year 'round, if desired, the sides being removable.

The great popularity last fall of the Hupmobile winter top equipment, the lower price and better top for 1916, and the spread of the idea—together with the new Hupmobile free service system—seem fair grounds for predicting an increased proportion of sales this year.

It would be well to place your order as early as possible, as these tops are built practically to order at the factory, and a large stock is not available.

THE HUPMOBILE
Free National Service
System—the like of which you get with no other car—is complete, and money so much genuine satisfaction to the owner, that you should learn all its details before you buy any car. Call and ask us about it.

AT the Auto Show the new BRISCOE 38-Four at \$750

An entirely new model, a wonder for looks, utility and finish, now on exhibition in our location at Space 26, second floor, at the Broadway Automobile and Flower Show.

Five-Passenger Touring, 38-horsepower, with the smoothest-running and softest-humming motor you've ever heard; 114-inch wheelbase, graceful lines, roomy tonneau, deep cushioned seats, demountable rims, cantilever springs in the rear—a handsome, comfortable, powerful car in every respect.

BRISCOE 38-FOUR

Whether you're a prospective buyer or present owner of a car, you ought to look over the new Briscoe. If you're "in the market," place your order and insure early delivery. If you act now, you'll be among the first; if you delay a day or so, you're liable to be about the two-hundred-and-first. That's just how good the new Briscoe is! Remember—\$750 f.o.b. factory.

Come and see it at the Big Show, Space 26, 2nd Floor.

The Standardized Car

Do You Know

That the 1916 Cole contains the most powerful 8-cylinder motor built in America—having at least 32 cubic inches more piston displacement than any other 8?

That this Cole 8 motor is also the most accessible on the market?

That the motor has removable cylinder heads—and all valves (16) are driven directly from one camshaft without the use of rocker arms?

That only one large water-pump is used—instantly accessible?

That the wheel-base is 126 inches, with a turning radius of only 43 feet?

That the complete road-ready weight with all supplies is but 3500 lbs.?

That it easily makes from 14 to 16 miles per gallon of gasoline?

That the Los Angeles price is only \$1925. You can easily verify these statements and many others which confirm Cole 8 Supremacy.

AUSTRALIAN TO BOX AT VENICE.

NEWCOMER PROMISES TO TRIM LOCAL LAD—MARTINEZ SHOWS STUFF.

In addition to an all-star programme, which will include a double main event, Manager Harry Gilmore of the Venice A.C. will offer his patrons an extra inducement for the winter months by giving any seat in the house at 50 cents, and ladies with escorts will be admitted free.

Sammy Morris, the bantam champ of Australia, will meet Lang Finn in one bout of the double bill, with Roy Brown and Slugging Martinez for the other. Morris is a newcomer, and will give Finn a good fight, and promises to trim the local lad. Martinez has shown great stuff in his fights at the beach, and is a great favorite with the fans. Brown is going good, and has beaten a number of the local lightweights. Johnny Farrell and Johnny Williams, welters, will tag at 142 in what promises to be a great bout.

Three other matches will complete the bill. The bouts are held in the Venice Auditorium, which is large and commodious, and the best of order is maintained at all times.

"ROWDY" ELLIOTT SIGNS A CONTRACT.

WILL AGAIN BE MANAGER OF THE OAKLAND BALL CLUB.

(BY A. F. NIGHT WIRE.)
OAKLAND, Oct. 27.—Harold "Rowdy" Elliott, manager of the Oakland baseball club, this afternoon signed a contract to pilot the club in 1916, putting to rest rumors that he was to be disposed.

Elliott will attend the convention of minor leagues in San Francisco next month, and said today he hoped to make several important deals at that time.

BOOSTS GREAT MACHINE SHOW.

FACTORY REPRESENTATIVE HAS CHER FOR SUCCESS OF BROADWAY SALON.

Mr. H. H. Smith, western sales manager of the Regal Motor Car Company of Detroit, is in Los Angeles after an extensive trip through the Northwest. Mr. Smith visited all the Regal representatives on the Coast and reports an increased demand for all Regal models, but especially the light four-cylinder model.

He says the buying public is rapidly being educated to the fact that economy, weight and power are not necessary to comfort or satisfaction and are looking more to economical maintenance in fuel consumption and tire life. The new Regal light four was designed to meet just this demand.

Mr. Smith was attracted to Los Angeles at this time by the automobile show and says it is the biggest and best he has ever seen on the Coast. He will spend a few days with the Colyear Motor Sales Company, distributors for the Regal line in Southern California.

Tonight will be society and Van Nuys night. With the first flash of the electrolights along Broadway the sack suits of business will give way to full evening dress. Among the men the conventional black will prevail.

For the women there will be a gala setting. The latest Paris creation purchased before the war will be delightfully lifted from its cedarwood repository. The newest styles of Los Angeles and New York will be brought forth. The array of beautiful gowns, offset by the glittering motor cars and wonderful floral decorations and exhibits, is expected to provide a picture that will long live in memory.

Every exhibitor in the show will have a full staff of salesmen, lecturers and suave-tongued hosts on hand. Automobile row will be on dress parade, and it will do the honors in a manner befitting the great occasion.

In honor of its own special evening Van Nuys will send in a large delegation. The beautiful city in the San Fernando Valley has contributed largely to the success of the Broadway Automobile and Flower Show. And it will further show its distinguished spirit of "hospitality" by entertaining with many special features.

Tomorrow will be dedicated to the colleges; it will be college day in all

CLAUDE WILLIAMS THE WHOLE SHOW IN LEAGUE.

BESIDES winning more games than any other pitcher in the League since Cack Henley was at his best in 1910 and won three games for San Francisco, Claude Williams of Salt Lake was in front in total strike-outs that it hardly seemed like a new record. Williams passed the 300 mark in the department of the pitching record. Williams passed the 300 mark in the department of the pitching record. Williams passed the 300 mark in the department of the pitching record.

Love was the most generous pitcher of the season in issuing free transportation, giving 137 bases on balls. Hall of Salt Lake was the most generous pitcher of the season in issuing free transportation, giving 137 bases on balls. Hall of Salt Lake was the most generous pitcher of the season in issuing free transportation, giving 137 bases on balls.

Piercy of Oakland was in a class by himself when it came to killing batters, hitting 29 men who faced him. Next came Piercy of Vernon and his victims; Leah, Portland, 17; Krause, Portland, 15.

Ryan of Los Angeles cut loose with 14 wild pitches, more than any other pitcher. Next came Hall of Salt Lake, with 13 and then Higginson of Portland, with 12.

Piercy of Vernon was the worst offender in the balk column, with five of the false moves called on him, Burns of Oakland-Los Angeles and Kahler of Portland each had two balks called on them.

HOTEL MARYLAND AUTO SHOW PROMISES CLASS.

TWO important factors have entered largely into the decision of so many dealers to make entries in the automobile show to be held at Hotel Maryland, Pasadena, November 17 to 20. One is the fact that the exhibition is to be staged in an elaborate setting inside the hotel itself, and the other is that the show comes at a time when the building will be well filled with wealthy winter visitors, many of whom will be in the market for cars. Already the Maryland has had a large number of cars on display at this time of the year, and the pretty bungalows in the gardens behind the main building are rapidly filling up. Every year a certain number of the winter guests make it their custom to buy an automobile soon after their arrival. The fact that a show is to be held inside the Maryland, says Mitchell, manager of the hotel, is a factor in itself. It is a factor in itself. It is a factor in itself.

ORGANIZATION DAY TO BE OBSERVED AT AUTO SHOW.

THIS is organization day at the great Broadway Automobile and Flower Show.

All day long the many organizations connected with the wonderful salon will act as hosts. The dealers, the show committee, the members of the show staff and all of the many wheels within wheels that have made the present week so notable in the automobile world will be honored.

Tonight will be society and Van Nuys night. With the first flash of the electrolights along Broadway the sack suits of business will give way to full evening dress. Among the men the conventional black will prevail.

For the women there will be a gala setting. The latest Paris creation purchased before the war will be delightfully lifted from its cedarwood repository. under electric power.

MORE LIGHT THE QU

Crossman Starts Some of the Stories of Big Further Just What Elinore Ducks.

IN THE Tuesday morning paper an article by E. Crossman generally received a warm reception in Southern California.

From the article it appears that Crossman has been unfortunate in early-season shooting and is now in the north and on the ocean. In other words, he is a mid-season shooter during the last few days of the season. He did get it and was pleased.

He has especially resented Lake Elsinore as a hole in the ground, and people returning from that with stories of good quail and shooting as fakers or vagabonds.

It appears that Mr. Crossman down to Lake Elsinore and stood the shore waiting for the ducks to come to him to be shot. He has also expected to find those of large ducks on the water when the sportsmen in Southern California could have told him that the water is in the north and on the ocean. In other words, he is a mid-season shooter during the last few days of the season. He did get it and was pleased.

On the same day that Mr. Crossman was at Lake Elsinore, he was at Lake Elsinore before and since then, such was the shooting as Dr. Crossman, Knox, Matt Walsh, Dr. Young, Mr. Moore, Tom Foreman, Cappel, Charles Val, LeLander, Frank Paper, F. G. Brown, E. H. Vaughn, and many others have shot ducks on Lake Elsinore and every one has left perfectly satisfied.

True, they did not get the limit of mallards or any other particularly species, but they had the sport of shooting at the ducks. It was a ruddy (or butterball) and at the same time knocked down a few of the larger birds. Then, when they were tired of rowing, they went out hunting, and, in many instances, returned on the same day with limit bags, and a few ducks to come north for a few more measure.

These men were satisfied with the shooting because they knew what to expect and also knew that the water was in the north and on the ocean. In other words, he is a mid-season shooter during the last few days of the season. He did get it and was pleased.

Personally, I was shooting on Lake Elsinore on two occasions, although I have been on the ground during the last season. Both times that I went I bagged fifteen birds in less than two hours. Some were more fortunate, others less so. One thing is certain—large ducks in plenty. As yet they are scarce, but if one wishes good sport, he should go to Lake Elsinore. I will promise him just that at Lake Elsinore.

ALL PREPARING FOR BIG BALL.

MOVIE AND STAGE HEROES AND HEROINES WILL DANCE TONIGHT.

Final preparations are being made today for the monster movie Mardi Gras with which a score of popular screen favorites will entertain tonight at Shrine Auditorium, in honor of the stars of the stage. The general public which has been invited to witness the love feast between the two branches of the profession, is eagerly awaiting the affair.

Charlie Chaplin yesterday positively announced that he would not appear as an official part of the programme, but that he intended to enjoy himself to the utmost by doing his famous "Charlie Chaplin Walk" around the floor.

Both Roland, Valerka Surratt and Lillian Lorraine, the prime beauties of the Folies, held an extended conference with their dressmakers yesterday, and something elaborate in the way of gowns for this trio who will appear in the impromptu cabaret, may be expected.

Kenneth Arbuckle will today hold a final dress parade of his Keystone boys to have them pick and choose the best for the impromptu cabaret. A drill and concert by the Los Angeles police band will be another attraction worthy of note.

The plans include the opening of which a score of well-known comedians will participate, followed by an impromptu cabaret programme during which impromptu cabaret numbers will be featured.

Mayor Sebastian will lead the grand march after which a confetti battle will be staged. From then on the affair will take on the aspect of a New Year's eve in San Francisco.

University of North Carolina's new athletic field cost \$10,000 and is now nearly nearing completion.

U.S.C. FOOTBALL DA BEING SHI

THERE are apt to be several drastic before the end of the season. T not be played by the Trojans Saturday.

Warren Board has asked Nevada scheduled game because he figures that the northerners are willing and ready to so far as to knock a large chunk of the game.

The Utah game is also giving worry. The California game on Thanksgiving that the latter is to be a terrific battle stronger eleven than last Saturday and that would handicap U.S.C. Board is trying to get the game on.

he has been unsuccessful.

TRAIN SMASHES CYANIDE WAGON.

DRIVER AND TEAM SAVED WHEN
LOAD IS HURLED FAR.

San Bernardino.
Fumigation outfit scattered by
speeding locomotive at San
Bernardino. Sheriff saved for
damages over judgment—Tramp
problem.

LOCAL CORRESPONDENCE.
SAN BERNARDINO, Oct. 27.—
Deadly cyanide, which has figured in
several near tragedies in Highland in
the last few weeks, nearly caused an-
other when a fast Santa Fe loop train
struck a fumigation wagon driven by
John Gay at the Church crossing.
Gay saw the locomotive just before
it struck the wagon and leaped clear
of the wreckage as the impact oc-
curred. One case of cyanide was
broken, but luckily it was thrown
many feet away from Gay and the
horses, which were also uninjured.
The team dashed away with the re-
mains of the wagon. The ton or more
of cyanide at the side of the road was
cleared away and carried to safety.

SHERIFF SUE.
Sued for \$20,000 damages, alleged
to have been sustained as a result of
a Sheriff's action in execution of a
justice court judgment, was filed to-
day against Sheriff J. L. McMillan and
the National Surety Company by At-
torney Henry M. Willis for Howard
J. Potter and Thomas P. Rigney, who
claim to be the locators of two claims
in Alpha Gulch in the Barstow sec-
tion, which were sold.

The complaint cites that the
Southwestern Lead Mining Company,
against which Mrs. Grace Faulkner
of Los Angeles secured a judgment for
\$337, relinquished title to the lands
and that they passed back and
were relocated by Potter and Rigney,
and that Sheriff McMillan "arrogan-
tically and unlawfully levied" upon
them to satisfy this claim, despite
written notice having been given to
the property filed by the sheriff.
Of the \$20,000, the surety company
is made defendant for \$5000.

TRAMP PROBLEM.
The matter of San Bernardino
county's official participation in the
plan of four southern counties to stop
the advance of the hobo army at the
portals of the State has been passed
up to Supervisor S. V. Horton, chair-
man of the board, by Supervisor R.
L. Riley, who has resigned as a mem-
ber of the County Committee because
of Horton's opposition to the stockade
project.

ANGELENO HEADS
BAPTIST WORKERS.
FIVE-YEAR PROGRAMME GIVEN
ENDORSEMENT BY THE
CONVENTION.

LOCAL CORRESPONDENCE.
MONTEVIA, Oct. 27.—H. Russell,
prominent churchman of Los Angeles,
has been chosen to head the Los An-
geles Baptist Association, now in con-
vention here. He will succeed Rev.
D. C. Williams.

At yesterday's session the associa-
tion adopted resolutions affirming the
Baptist "five-year" programme, which
calls for the next five years, for the
establishment of 1000 missionaries,
\$500,000 for schools, \$2,000,000 to
endow a retired ministers' home, and
3 cents a day from each member for
demolition purposes.
Today's meeting was devoted to the
work of the Woman's Missionary So-
ciety.

ATTEND K. P. JUBILEE.
In celebration of the local mem-
bership's passing the 100 mark the
local Knights of Pythias last night
held a tripartite social and jubilee at
Hotel Levee Oaks. Prominent knights
from many cities, including R. W.
Schneider, Robert G. Loucks, Gen.
George M. Powell, Stanley E. Wilson,
Judge Arthur M. Hadley, all of Los
Angeles, and G. C. Barlow of San
Pedro, were among the visitors and
speakers. An interesting programme
of speeches and music was followed
by dancing and refreshments were
served at midnight.

THIRD ATTEMPT
TO MURDER MAN.
STRANGER WITH RIFLE FIRES
AT AN ARSONIST WHO
GAVE EVIDENCE.

LOCAL CORRESPONDENCE.
An attempt to murder Edward Ro-
sini, confessed arsonist, whose confes-
sions to the police gained exoneration
for implicating several other Italians
in arson cases, was made last night
at his grocery store, No. 2194
Ninth street. This is the third attempt
on his life.
Shortly before midnight he was
aroused by sounds at the front of his
store, he living in the rear. Going
out he faced a man armed with a rifle.
Realizing his danger, he rushed back
into the store, while the stranger fired
two wild shots, then fled.
He was unable to furnish a de-
scription of the man.

One of the arson cases was the
blowing up of his own store several
weeks ago.

FIRES IN MOUNTAINS.
Ranches Near Calabasas Endangered
in Fire Which Sweeps Over Three
or Four Square Miles.

Fire starting in the brush back of
Calabasas in the Santa Monica Moun-
tains, last evening, spread to an area
of three or four miles, and is threat-
ening ranches in the vicinity. The
flames are believed to be on or near
the George Lewis ranch, near Vias
station, fifteen miles north of Santa
Monica, and five miles from the ocean,
back of the Malibu ranch.

F. H. Case of The Craggs Country
Club, eight miles north of Calabasas,
says that he climbed a peak near by
endeavoring to locate the blaze, but
on account of dense smoke filling the
valleys, he was unable to distinguish
anything below.
Fire fighters will be sent out this
morning.

Music and dancing this
afternoon and evening, at the
Broadway Automobile and Flower Show,
opposite City Hall.

Florence Parker de Haven,
Vaudeville favorite, who is entertaining movie fans at Chum's Auditorium
with her delightful work in "The College Orphan," and below Serita Gatte,
brilliant exponent of Spanish dance art, who has been taking part in mo-
tion pictures in this locality.

Subscription Roll In.

FIELD OF CAMPAIGN FOR
EXPOSITION BROADENED.

WITH uncollected contributions
beginning to roll in at the
headquarters of the San Diego
Exposition Committee yesterday,
and the big experience meeting of chair-
men of subcommittees scheduled for
noon today at the Alexandria, the
campaign for a Southern California
Exposition for 1916 has blossomed
into lusty flowering.
"Los Angeles' pledge will be made
good. Put that down as certain," said
Chairman Vernon Goodwin of the
committee yesterday.

A widening of the scope of the cam-
paign was effected yesterday when
President Bulla of the Chamber of
Commerce sent the following telegram
to the allied chambers of the West
Pacific Coast and Denver:
"Los Angeles Chamber of Commerce
deems it most important to South-
west that San Diego exposition be con-
tinued during 1916. They must have
help. Must know by November 4 what
other communities will do. Los An-
geles raising \$75,000. Wire us earliest
convenience what your community
will do."

ACT OF COURTESY.
LOCAL CORRESPONDENCE.
POMONA, Oct. 27.—Young Lochin-
var is a motorman on a Pacific Elec-
tric car running between this city and
Los Angeles. Yesterday he stopped
his car to save a lady's bonnet. When
Ines Roberts and Mildred Whipp were
going up Garvey avenue in the Roberts
auto, Miss Roberts' hat was caught
by the breeze. It raised up, sailed
over her head and moment and fell
squarely in front of a car that was
pulling out of town. The motorman
stopped his car, got down, picked up
the hat and restored it to its owner.
And still they say that the days of
chivalry have passed into history.

AUTO MEN WINNERS.
LOCAL CORRESPONDENCE.
KNOCKING out a city traffic ordinance
that prohibited the substitution of
reflecting mirrors on the rear of motor-
cycles for lamps, Judge Merle J. Rogers
today decided a test case which
was started three months ago by the
motorcycle riders of this county. The
motorcycle men contended that, as the
State law allowed either lamp or re-
flector, the city could not prohibit the
latter. This contention is upheld by
the court. The decision is far-reach-
ing, affecting every motorcycle rider
in the State.

DEMANDS PROTECTION.
LOCAL CORRESPONDENCE.
SANTA ANA, Oct. 27.—The Board
of Supervisors have accepted a deed
from the Boles Chico Gun Club for
a right of way for a strip along the
gun club property between Sunset
Beach and Huntington Beach. This
will bring rejoicing all along the
Orange county coast. The strip was
necessary for the ultimate construction
of a boulevard from Seal Beach to
Balboa. Negotiations for the deed
have been under way for months.
Condemnation proceedings seemed to
be the only way of getting the deed.
However, the gun club finally agreed
to give the deed upon certain pro-
visions. Those provisions are in the
deed, which will be put in escrow un-
til the condemnors are carried out. The
county will have to cover the strip
by January 1, 1917, with eight inches
of clay, and round and oil the sur-
face. It must build a six-foot fence
with ten strands of wire upon it along
the gun club property. This fence is
to be an aid in keeping hunters off of
the club property.

All the beautiful "movie"
actresses will be at Broadway
Automobile and Flower Show
Wednesday night, October
27th, Boston Store Building,
opposite City Hall.

Pat Maguire
GETS FAMOUS.

LOCAL CORRESPONDENCE.
BERKELEY, Oct. 27.—Leo
Joseph Maguire of Los Angeles
was elected captain of the fresh-
man football team this after-
noon. The freshmen meet the
University of Nevada Saturday
in the big game of the fresh-
man season.

Maguire is a graduate of Los
Angeles High School, where he
played for two years on the
rugby team. He is a brother
of Al Maguire, who was recent-
ly taken from the varsity squad
because of injuries.
Maguire will play at half-
back, after having been shifted
from full-back to make room
for Moses, another Los Angeles
player. The new captain is
conceded to be the best of the
freshman squad. His ability to
execute end runs has earned
him much favorable comment.

After considerable agitation and
work on the part of the charter mem-
bers, the Delaware Automobile Club,
Delaware, O., has been organized. L.
C. Riddle is president. A membership
campaign is on and among the first
things the club hopes to do is to es-
tablish safety zones for corners.

in the big game of the fresh-
man season.

Maguire is a graduate of Los
Angeles High School, where he
played for two years on the
rugby team. He is a brother
of Al Maguire, who was recent-
ly taken from the varsity squad
because of injuries.
Maguire will play at half-
back, after having been shifted
from full-back to make room
for Moses, another Los Angeles
player. The new captain is
conceded to be the best of the
freshman squad. His ability to
execute end runs has earned
him much favorable comment.

After considerable agitation and
work on the part of the charter mem-
bers, the Delaware Automobile Club,
Delaware, O., has been organized. L.
C. Riddle is president. A membership
campaign is on and among the first
things the club hopes to do is to es-
tablish safety zones for corners.

TEACHERS' PLANS
FOR CONVENTION.

LOCAL CORRESPONDENCE.
REDLANDS, Oct. 27.—C. H. Covell,
Superintendent of Schools here, also
president of the southern section of
the California Teachers' Association,
has completed the work on the pro-
gramme for the annual session, which
is to be held at San Diego, November
3 to 13. The schools here will have
a vacation at that time, all of the
teachers being required to attend the
sessions. This means that there will
be but one week's vacation at Christ-
mas instead of two.

The sessions will almost all be out
at doors, at the big Spreckles organ
pavilion. Constantino will sing and
there will be several organ recitals by
Dr. Stewart. The big speakers will
be J. H. Finlay, Commissioner of
Education of New York; William
Wirt, superintendent of work at Gary
schools, who is mentioned as the new
superintendent of the Chicago schools,
and Josephine Preston, State Superin-
tendent of the Schools of Washington
State.

There will be three programmes,
said Mr. Covell yesterday. One will
be the southern association pro-
gramme; another will be the insti-
tutes of San Bernardino, San Diego,
Orange and Los Angeles counties; the
third will be the institutes of the
cities of Alhambra, Pomona, Santa
Ana, San Diego, Santa Monica and
San Bernardino. There will be 6000
teachers present.

The exposition officials have an-
nounced that teachers will receive a
\$1 rate for the week's admission to
the grounds, and that it will admit
them to nine of the concessions. There
will be trips to La Jolla, La Brea
and other interesting places.

CHUCK-A-LUCK CHUCKED.
LOCAL CORRESPONDENCE.
VENICE, Oct. 27.—The City Trust-
ees in a special meeting tonight
summoned concessionaires here before
them and informed them that all
games upon which a ban has been
placed by District Attorney, such as
chuck-a-luck and metal and wood-
en race horses, must cease operations.
The action of the trustees followed
closely upon the action of the
Dick Dunnavant, owner of one of
the games, on a charge of battery on
Edward Simpson. The trustees in-
formed the concessionaires that they
intend to learn just what games must
go and that they will be informed
thereon. The date set for the change
is November 1.

RIPLEY ANNIVERSARY.
LOCAL CORRESPONDENCE.
SAN BERNARDINO, Oct. 27.—
Southern California fruit and pro-
ducts will be a prominent factor in
the banquet which Santa Fe officials
will tender President E. P. Ripley at
Chicago on October 30, in honor of his
seventieth birthday anniversary, and
the approach of the completion of
twenty years as head of the great
railroad system. Today there left San
Bernardino in a refrigerator car great
clusters of oranges, lemons and grape-
fruit, palms from this city, cactus from
the desert and other products, particu-
larly Californian. As the car
speeds northward crops and plants
typical of the various sections through
which the Santa Fe passes will be
gathered up and these all will be used
to breathe an atmosphere of the West
upon the assemblage of officials as
they gather about the board to pay
a tribute to their chief.

INJURED IN RUNAWAY.
LOCAL CORRESPONDENCE.
BRYN MAWR, Oct. 27.—E. N.
Juice, a well-known rancher living
near here, was seriously injured to-
day when his team of horses ran
away on the new cement road of Col-
ton avenue. The horses were hitched
to a cultivator, and Mr. Juice was
soon thrown off the seat and into a
ditch. He is about the head and
shoulders, but it is not thought his
injuries are fatal. The team became
frightened, at an automobile and
thrust the cement road. One of the
horses was a sprained leg and it is
feared that it will not recover.

SANTA MONICA, Oct. 27.—"Wom-
ened many years here, where she won
honors in various athletic. At one
time she was tennis champion of Brit-
ish Columbia. Three years ago she left
for Europe with Mrs. T. H. Dudley,
wife of the Mayor of Santa Monica,
proposes to show her loyalty to the
cause of the allies in Europe. Writing
from the home of her sister, Mrs.
Lester Partridge of Leicester, Eng.,
Mrs. Ryan informed Mr. and Mrs.
Dudley that she had decided that her
adherence to the allies could be shown
in no better way than to join their
forces, where she was most needed.
Accordingly, she writes, she has
joined the Red Cross of the French
army, and, being an accomplished
motorist, will drive a motor car in
the ambulance corps.

Miss Ryan is a Californian, having
been born in various places. She is
a well-known figure in the local
athletic world, having won many
honors in tennis and other sports.
Her decision to join the Red Cross
ambulance corps is a testament to
her patriotism and her desire to
contribute to the war effort.

Hundreds Turned Away.

QUEEN of the Chandler exhibit, came
down from San Francisco especially to
be present at the show last night. As
Miss Manson sat in the tonneau of the
Chandler Six surrounded by a large
collection of American Seafores, she
greeted hundreds of friends, and many
admirers were presented to her by Mr.
Don Smith and other members of the
Chandler force.

Miss Ruth Roland was present, and
spent the entire evening in the ton-
neau of the palatial Locomobile. Miss
Roland has a host of friends, and the
Locomobile exhibit was besieged by
those wishing to meet her, or to even
see the charming actress.

KING QUEEN.
The King Eight was graced by the
popular Miss Marguerite Snow. Miss
Snow's friends at the show proved to
number in the thousands, and it was
next to impossible to get within hail-
ing distance of the King station.

The motion picture stars were at-
tractive gowns, and carried huge bou-
quets, which lend added beauty to the
appointments of the wonderful show.
The motion picture stars were a dis-
tinct novelty. Nothing like it has ever
before been attempted in connection
with an automobile show, anywhere in
the United States. The feature was
such an overwhelming success that it
is to become a permanent attraction
at the annual Los Angeles motor show.

DEATH BRUSHES
AWAY FORTUNE.PROSPECTIVE HEIR DIES AND
MOTHER LOSES ALL.

Marriage was illegal, being too soon after her husband's divorce, and little one who did not live to see light was her only hope.

"Your honor, that which we feared has come to pass."

When Judge Rives of the Probate Court called the Holmes contested case yesterday afternoon Attorney Swaffield made this announcement. To the spectators it meant nothing, but to the court and the attorneys in the case it meant that a little life had passed out upon whose existence the mother based her hopes of a portion of the estate of her deceased husband.

Mrs. Betty Holmes, upon whom this misfortune has fallen, married Leon Holmes about three weeks after her husband's death. She had obtained a divorce from Mrs. Lillian Holmes. The divorce suit was tried in California. Betty's marriage took place in Arizona, and the couple returned to Long Beach to live. Seven months later Leon Holmes, his father, Frank L. Holmes, and his mother, Sarah Holmes, lost their lives in an automobile tragedy near Long Beach.

The elder Holmes and his son were pinners in the battle. Betty Holmes had accumulated a comfortable estate, which ordinarily would be inherited by the second Mrs. Holmes. But unfortunately her marriage was not valid, and this was admitted by her attorneys when the first Mrs. Holmes and the second Mrs. Holmes filed petitions for letters of administration.

But, though the marriage was void, another life promised to brighten the heavy heart of Mrs. Betty Holmes. If this child was born it would inherit its rightful portion of the \$50,000 estate. If the light burdened mother would have no interest in the estate. So Mrs. Betty Holmes, who was not a legal wife, whose husband was killed and whose little baby never saw the glad light of day, passed out of the case with the announcement of Attorney Swaffield.

The Swaffield brothers, however, remain in the case, having been associated with Miss Elizabeth Kinney, who represents the public administrator in the interest of Mrs. Sarah Holmes's sisters and brothers.

Mrs. Lillian Holmes, who signed a separation agreement in which she waived her rights to administer on the estate, claims that the agreement was obtained under duress. She asks to have it set aside. Her is the only petition for letters of administration now before the court.

Another question which enters into the case is who last survived as the result of the automobile wreck. Attorneys Skinner and Jakes claim that Leon, the son, lived longest after the auto went through the railing of the bridge and plunged into the ravine. If this is found to be the fact the estate of Mrs. Holmes will receive half of the estate. If the other side's contention is upheld, namely, that Mrs. Sarah Holmes lived longest, her brother and sisters will inherit the property.

DID NOT MIX.
JAP DIVORCE WHITE.
The final chapter in a story which fourteen years ago created a sensation and was the apparent forerunner of similar happenings, was written in the divorce court yesterday when Judge Monroe granted Frank T. Kurana a decree from his white wife, Ileana Wilcox Kurana, and gave him the custody of their daughter, June Wilcox Kurana, 12 years old. The ground was desertion.

This was the third time a divorce action had been brought. Mrs. Kurana failing twice. Her first suit was on the ground of extreme cruelty and failure to provide for the support of the child. It was not substantiated. Mrs. Kurana tried to establish a residence in Santa Ana for the purpose of the second suit, but Mr. Kurana had the case transferred to this county and won a dismissal of the suit.

Harking back fourteen years, when Mrs. Kurana was much sought after, Mr. Kurana was a wealthy Japanese merchant of San Francisco. Her acquaintance with him ripened into love apparently. She agreed to marry him, but the媒人 shocked her friends. It was necessary for them to go to Reno, where the ceremony was performed, and upon their return the husband showered his wealth upon his young white bride.

The San Francisco earthquake and fire destroyed Mr. Kurana's business and wiped out his wealth. He came south and went into business at Redondo Beach in a small way. But the change from wealth to moderate circumstances seems to have wrought a change in the love of the wife for a husband of alien blood.

When she sued for divorce the story got into print, and subsequent efforts to free herself from the ties that apparently galled revived the story. Yesterday Mrs. Kurana did not contest her husband's suit. It seems, however, that she was waiting in the witness-room.

The court stated that marriages such as this was a turn out the same way. He said that the only ground for divorce the wife had in the first case was the fact that her husband was a Japanese. It was shown by the evidence that he treated her as well as an American husband is expected to do. Mrs. Kurana knew he was a Japanese when she married him, and it was evident to the court that she became tired of him because he was a Japanese and because he lost the major part of his money, but that was no reason why she should ask for a divorce.

Mrs. Kurana made no defense and she refused to say to whom she consented to give her child to her husband. She expressed contempt for the public, which she stated, has never given her attention.

WOULD BREAK WILL.
NIECE SEEKS MONEY.
Anna L. Gove, a niece of Mrs. Anna M. Morrill, is contesting the will of the late Mrs. Morrill. As executor of her aunt's will, as a residuary legatee, Mr. Morrill, a stepson, may inherit the bulk of his stepmother's \$25,000 estate.

The contest was filed yesterday by former Judge York and Harry M. Irwin, who allege that Mrs. Morrill at the time she executed her will was under the influence of her stepson. The latter, it is alleged, resided with her and obtained money and other property from her while she was incompetent, without consideration.

By inducing her to believe that he was friendly to her and by writing flattering letters, Mr. Morrill excited a

At the City Hall.

CHANGE PLANS
FOR VIADUCT.COUNCIL STILL OPPOSES GRADE
CROSSINGS.

City Engineer to Prepare Plans for Embankments at Approaches to Sherman Drive Intersection, and City Will Seek to Require Pacific Electric to Pay for the Bridge.

Action on the petition of residents south of the Pacific Electric Railway along Sherman drive for a right of way across the tracks was delayed for two weeks by the Council yesterday while plans for a fill and bridge were prepared as a substitute for the viaduct plans prepared by the Public Utilities Board.

The original plans for a viaduct estimate the cost at \$40,000 and the proposal was to require the Pacific Electric to pay one-half of the total cost, the other half to be paid by an assessment district the other \$10,000. The Council practically decided against the viaduct plan, and the new plan, which will come up in two weeks for a final fill approach the tracks and a bridge to be paid for by the approaches to the bridge, and the cost of retaining walls and damages will be greater in the end than the cost of the viaduct.

Those who favor the original viaduct plan say that the embankment approaches to the bridge will be about twice as high as the title to the lots fronting on the approaches to the bridge, and the cost of retaining walls and damages will be greater in the end than the cost of the viaduct.

FIGURING THE COST.
WAREHOUSE BIDS OPENED.
Bids were opened by the Harbor Commission yesterday for the new concrete warehouse to be constructed on pier No. 1 at the municipal harbor and all were referred to the City Engineer for a report on the probable cost of building the warehouse by force account. The bids, which are for labor and supervision only, ranged upwards from \$115,000. The Mayor and Council have asked the Harbor Commission to do the work by force account, employing home labor, and materials have already been bought by the commission. The chief factor in the commission's decision on the matter to be based on the engineer's report.

NEW BUSINESS.
TEA IMPORTERS ACTIVE.
Representatives of a large tea importing firm of Salt Lake called on the Harbor Commission yesterday to ask assistance in inducing the government to provide a resident inspector who can inspect importations of tea and spices. Occasional importations have been made through this port and the Salt Lake importers say they will do more business here if the delay incident to sending for an inspector can be obviated. The matter of superior warehouse facilities is also an important one with the tea importers, but they have been assured that, with the completion of the proposed new concrete warehouse, they will have the service they need.

Importers of beans have also made recent inquiries of the Harbor Commission regarding warehouse facilities, and as soon as the new warehouse is completed it will have consignments waiting.

OBJECT TO FIRE HOUSE.
CITIZENS ASK REMOVAL.
While the Citizens' Two-Union Committee and the firemen were especially active yesterday in their campaign to compel the Council to use the city reserve fund for salaries necessary to remove at least six more fire houses, residents of the district filed a petition with the City Clerk asking the Council to abandon Home Co. No. 2, at No. 1527 Winfield street. The petition, which is signed by about seventy property owners, averaging a frontage of more than sixty feet each, cites that the street is in a residential district and that the fire house has retarded the building of expensive apartment-houses, for which the street is admirably suited. It adds that there are business districts near by which would welcome the fire house, and its removal from Winfield street will in no way increase the fire hazard.

Chairman Wheeler of the Finance Committee and Councilman Betkouski announced yesterday that they will hold a conference with Chief Elin within a few days to hear any suggestions the Chief may offer as to how the city can appropriate \$70,000

more for the fire department pay roll in order to open six more fire houses for the remainder of the fiscal year.

"Probably Rain."
The City Council discussed the weather man's promise yesterday by issuing formal notice to the Board of Public Works and the Park Commission that no bills for watering the palms on the streets of the business district will be authorized after October 31. It is likely, however, that the Council may be called upon to appropriate \$1000 for the removal of the palms from the sidewalks, provided the city can discover who owns them and what disposition is to be made of the trees.

Respite for Jitbuses.
The Public Safety Committee of the Council decided yesterday to recommend that an extension of thirty days be given the jitbus operators in which to comply with the ordinance prohibiting them from carrying passengers on the running boards of their busses. It was explained to the committee that enforcement of the ordinance, which was to have become effective November 1, would put all the touring cars out of business, and the owners have not been able as yet to procure bus bodies for their cars.

Congestion Around Station.
Chief Snively reported to the Police Commission yesterday that traffic congestion around the Southern Pacific station on East Fifth street is demanding immediate attention, and the police are powerless to remedy conditions until the Council enacts legislation requested several months ago. The commission will again ask the Council to include the region in the business district so that permits may be given for automobile stands and certain parts of the streets may be kept clear.

Patrolmen are Appointed.
The appointments of twenty extra patrolmen to serve five months at

made by Chief Snively from civil service lists were approved by the Police Commission yesterday. Four patrolmen were appointed to vacancies in the regular force, and two of the six additional motorcycle policemen authorized by the Council recently were also appointed yesterday. The Police Commission approved the promotion of Patrolman F. E. Kiersey to police sergeant.

City Hall Briefs.
City Mother Gilbert requested the Police Commission to ask the Council for an ordinance exempting the position of assistant city mother from civil service requirements. The request was filed by the commission.

Accidents during the first half of October in which the Los Angeles Railway figured numbered 236, according to the report filed yesterday with the Public Utilities Board. "Auto struck car" and "Car struck auto" are the classifications covering more than half of the accidents.

Bids for three barges and one derrick barge were opened by the Harbor Commission yesterday, and the Crowley Launch and Tug Company of San Francisco will likely furnish the three barges for \$10,250 and the derrick barge for \$2300.

EXTORTION CHARGED.
Constable and Deputy on Trial for Alleged Transaction Involving Theft and "Settlement."

A constable and deputy constable are on trial at San Fernando, charged with extortion. The offense is the growth of the theft of a bale of hay, the squelching of prosecution and the squelching of the victim.

For Fyler, constable, and his brother-in-law, Louis Ruiz, a deputy, are the defendants in the action, which is proceeding before City Recorder Roberts at San Fernando, with Deputy District Attorney Woolwine conducting the prosecution.

The State charges that Constable Fyler and Deputy Ruiz arrested A. L. Gonzales for the theft of a bale of

hay valued at \$2. The hay, it is charged, belonged to William Troxell. According to the information filed by the District Attorney, Constable Ybarra and Deputy Ruiz told Gonzales that if he didn't produce \$65 he would be sent to jail for six months.

Gonzales, according to his story told on the stand, paid the money to Ybarra. The evidence tended to prove that Ybarra gave Ruiz \$15 kept \$10 and delivered the remainder to Troxell, the owner of the hay. Troxell, in his generosity, according to the testimony, gave an additional \$10 to the constable and \$5 to his deputy, and Gonzales went free.

The case has been on hearing several days and may consume two or three more days. The defense has not yet put in its side of the story.

ANGELENO DEAD AT UPLAND.

Asthma Victim Believed to Have Been Second-hand Clothes Dealer. Destitute, Says Note.

An elderly man, believed to be A. Berliner of Los Angeles, a dealer in second-hand clothing, was found dead in his room at the Hotel Upland at Upland yesterday. He arrived at Upland Tuesday afternoon, suffering from a severe attack of asthma. He was trays by a doctor in his room and nothing more was seen of him until the body was discovered.

On it was found the card of A. Berliner and a note, written on cheap yellow paper, signed by former Councilman F. J. Whiffen, and addressed to Dr. Milbank Johnson, stating that the doctor was to take care of the man in destitute circumstances, and that either Dr. Johnson might do for either or both of them what he would be pleased to do. Whiffen says he does not remember the man.

BANKRUPTCY PETITION.
The Auto Service Company of San Diego filed a petition in bankruptcy yesterday. The debts of the concern are given as \$4517.50, of which \$2317.50 is unsecured. The assets are alleged to be worth \$3000.

BEST SHOD WOMEN HERE.
Because Monday is the day when the women of Los Angeles wear their best shoes, the city is no climatic difficulties to overcome in wear next summer's fashions in all this winter," said C. H. Baker, president of the C. H. Baker shoe company yesterday.

"In the East the most fashionable women must now lay in a heavy-duty boot of sturdy construction warranted to keep out the slush and sleet which will be the feature of the climate there for the next few months. There is nothing there for the beautiful open-work lace and thin-soled, dainty boot which fashionable women will be wearing."

RETURNING FROM EUROPE.
Mrs. D. C. McCan, president of the Los Angeles Civil Service Commission, will return tomorrow afternoon on a two-month trip to Europe. She paid a visit to President Wilson and his family in Washington. Just before he made his formal announcement that he would wear women's suffrage amendments in Jersey. Since leaving Washington, McCan has visited her sister, Mrs. Laura Grover Smith, at New York, and also friends at New York, Mich., and also friends at New York, Mich.

WEDDING HALTS CASE.
Preliminary examination of the case of Charles Duncan, Henry and Claude Fyler, charged with the theft of an automobile, was postponed by the marriage of Thomas J. Brinker, who was charged with the killing of Sergeant J. P. by Harry Duncan, was postponed by the marriage of the man. Justice Palmer will tomorrow hear the defense, stated that it is possible for his associates to appear because of the marriage. Deputy District Attorney Stafford made no objection to the continuance.

THE DEAD.
R. Minnaikia, killed instantly, Mrs. R. Minnaikia, died at County Hospital.

THE INJURED.
